

**Manufacturers of Artificial Leather**

# ABOUT US

GTEX Fabrics Pvt. Ltd. has started its operations in 2020 and is a subsidiary of Gujarat Flotex Pvt. Ltd., which is having a rich experience of more than 2 decades in upholstery & furnishing segment globally.

GTEX is an exclusive manufacturer of technical textiles, i.e. leatherette in PU/PVC base with remarkable features, designs & colours to meet diverse consumer needs in various sectors.

GTEX has a vertically integrated manufacturing facility combined with world's best artificial leather production line by "Matex" from Italy, knitting machines by "Karl Mayer" from Germany.

GTEX with its state-of-art manufacturing facility and modern laboratory equipment's for R&D & QC has made it possible for us to capture remarkable market share in domestic as well as overseas leatherette segment in a very short span of time.

# ABOUT US

Cont...

An overwhelming response from our domestic as well as overseas customers encouraged us to expand further by adding one more line of Matex, Italy which is scheduled to be commissioned by 2022.

Our Customer centric approach, strong R&D team, stringent vendor selection & continual quality check of raw-materials in adherence to production SOP's by integrating eco-friendly technology helps us to be the first choice of all our customers looking for synthetic leather products. In addition to great quality and aesthetic demands, our deliverables are characterized by their high functionality.

# OUR STRENGTH

Consistent delivery of excellent quality products as well as by maintaining industry approved high quality standards.

We promise to achieve this success by always keeping innovation at the forefront of our planning, followed by the latest developments to maintain a competitive edge over our competitors and setting new benchmarks in the industry.

# ENVIRONMENT

Our goal remains crystal clear, and that's to be the market leader of Artificial leather and become the first choice for consumers all over the world. But all these don't hinder our approach towards being a socially responsible corporate.

We would be investing a lot towards our expansion plans, but we have invested our hearts and energy towards making sure that we become an employee & environment-friendly organization. Our vision to be a reliable name in the leatherette segment coincides with our aim to give it back to the society and environment.

# CORPORATE SOCIAL RESPONSIBILITY

At GTEX, we're an active supporter of socially responsible causes designed to promote issues that are relevant in the communities in which we operate, working hand-in-hand with local governments and NGOs.

Through our brands' various CSR initiatives, we support causes that help promote community awareness on issues such as environmental sustainability, literacy and education, Sanitation and health.

We are also committed to causes that foster the preservation of heritage, traditions and culture.
