

AEROPRESS®

AeroPress Clear Coffee Maker

The appearance of glass, the durability of plastic - everything's clear with the newest AeroPress coffee maker. Now available in crystal CLEAR, your customers will want to show off this glass-like coffee maker on their counter. While it has a new look, the AeroPress Clear is just as durable as the AeroPress Original coffee maker and was made to pack up and go.

WHY WE LOVE THE AEROPRESS CLEAR:

- **SAME TECH, NEW LOOK** – Uses the same revolutionary brewing technology as the AeroPress Original in a NEW crystal-clear form
- **PREMIUM-GRADE MATERIALS** – Made from Tritan™ Copolyester TX1001, a new-generation material specifically designed for high-heat consumer housewares and appliances
- **DURABLE AND BEAUTIFUL** – Has the appearance of glass but is much more durable, so your customers don't have to worry about breaking it and can take it with them on all their adventures

Weight: 0.27 kg (0.6 lbs)

Dimensions: 11.11 x 11.11 x 19.37 cm
(4.375x 4.375 x 7.625 in.)

11-PACK CASE

GTIN #: 20852760819842

Stock #: 90CL11

Cs Weight: 3.62 kg (8 lbs)

Cs Dimensions: 41.12 x
28.74 x 21.27 cm (16.188
x11.313 x8.375 in.)

US Pallet Configuration:
48x40x75

Qty unts/palt: 80

Weight US plt: 319 kg (703
lbs)

FREQUENTLY ASKED QUESTIONS:

- **What is the difference between the AeroPress Clear and the AeroPress Original?**
The AeroPress Clear uses the same breakthrough technology as the AeroPress Original. As the only coffee maker on the market that combines the best of 3 brew techniques into one simple to use press, you get uniquely delicious, grit free flavor. Create Americano, espresso style, latte or cold brew coffee tailored to your taste in 1-2 minutes. So what makes the AeroPress Clear different? It is made from Tritan™ Copolyester TX1001 plastic, which has the clear appearance of glass but not its fragility. The AeroPress Original is tinted grey and is made from polypropylene, which is cloudier in appearance.
- **How do you clean the AeroPress Clear?**
For day to day use, a simple rinse is sufficient because the plunger wipes the chamber clean as you brew. However, you can wash the AeroPress Clear in the dishwasher (top rack only). We recommend occasionally removing the seal from the end of the plunger for a good washing inside and out with warm water and dish soap.
- **How much coffee does the AeroPress Clear make?**
The AeroPress Clear can brew up to three shots of espresso style coffee. If you prefer to brew your coffee by pushing all the water through the grounds, you can brew one 10 oz. serving of coffee or cold brew.
- **What grind size works best with the AeroPress Clear?**
For the best brewing experience, use a medium-fine grind size, shake to level the bed of coffee grounds before pouring in the water, and pour the water slowly.
- **Is Tritan™ Copolyester TX1001 food-safe?**
Yes. Tritan™ TX1001 may be used in repeated food contact articles under United States Food and Drug Administration (FDA) regulations. Tritan™ TX1001 is certified to NSF/ANSI Standard 51 for Food Equipment Materials and is also certified to NSF/ANSI Standard 61 – Drinking Water System Components-Health Effects. It is BPA and phthalate free.
- **Is AeroPress sold worldwide?**
Yes, AeroPress is loved by baristas and coffee consumers worldwide in over 60 countries (45k+ five star reviews online).
