Ardigas® - A name which stands for quality and design

For nearly 50 years, Ardigas® is known not only nationally, but also world-wide as a manufacturer of household goods. The elaboration of new developments takes place in the company itself, including all further steps to production, beginning from the planning through tool-construction and processing of metal and synthetic materials, up to serial production. We are able to create and produce all items of our range, synthetic or metal products, according to our customer's requirements, concerning the colouring and fashionable design.
