Bed & Breakfast & *Nature*

SUMMER 2024

Bed & Breakfast & Nature

Life is simple in the woods. From thunderstorms to the blinding sun, summer days in the mountains are in tune with the rhythms of the seasons, enlivened by the colors and sounds of nature. Rocks dress in different shades with the changing light, flowers bloom bright but always subdued... lush raspberry bushes, birds tweeting at dawn, the giggle of the brook turning into a waterfall, the wind whispering, the mysteries of night animals.

A house in the mountains needs love and care: splitting wood, cutting the grass, tending the veggie patch, reinforcing walls, repairing the roof, cooking... Opening a bed & breakfast is a way to welcome backpackers in a world a bit apart, where the skies dance, to create unforgettable moments for guests.
