

Flaps and magnets hold the paper.

## 1 Back Flap

It firmly holds turned papers.

## 2 Bottom Flap

The bottom flap prevents papers' damage and keeps them flat.

Ordinary clip boards...

When the wind blows...

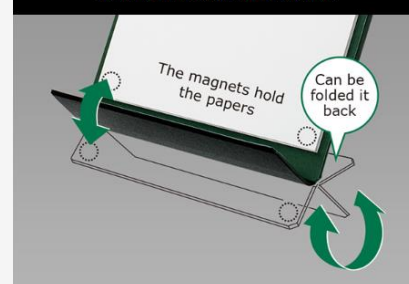

When putting into a box...

It's so stressful!

## Choose magflap!

Its bottom flap gives you a solution.

## 3 From end to end covered top clip

Ordinary clip boards...

The corners of paper get wrinkled.

Magflap can hold the top side of paper and keep it flat.

## 4 Position Guideline

Easy positioning by the guideline

## 5 Magnets inside

You can attach it to steel-surfaces by magnets

- \* CAUTIONS when you attach it to steel-surfaces
  - Capacity: 10sheets(based on A4 copy paper)
  - Be sure to fold back the bottom flap.
  - \* Some surfaces may prevent magnets
