

 St. James
LUXURY HANDMADE IN BRAZIL

Uma história de tradição, qualidade e design

A history of tradition, quality and design

Fundada em 1976, a St. James nasceu com a crença de que a casa é o lugar mais importante das nossas vidas. Acreditamos que nossa casa é o nosso santuário, nossa ilha de conforto e bem-estar, que nos protege de todo o ruído e stress do mundo exterior. Também acreditamos no poder do belo, para elevar o espírito, aquecer o coração e nos ajudar a ter uma vida mais alegre e saudável. Assim, nossa missão sempre foi fazer da casa um ambiente cada vez mais agradável, onde podemos estar cercados de beleza e significado por todos os lados. Fazemos isso produzindo objetos lindos e de alta qualidade, para decorar e servir, de maneira artesanal, sempre com o toque humano.

Rompendo com os padrões estéticos do Brasil na época, a St. James foi a pioneira na fabricação de peças com estilo moderno e desenhos lisos. Em menos de 2 anos já vendíamos nossos produtos também mundo a fora, com clientes nos Estados Unidos, Europa, Oriente Médio e América Latina.

Sempre presente em nosso DNA, a combinação entre artesanania, qualidade e design, fez com que a St. James se tornasse referência em produtos de luxo para a casa. Privilegiamos o talento e a maestria das pessoas que estão por trás de cada produto, através do equilíbrio entre o material, o desenho e a técnica dos artesãos que trabalham o metal.

A inovação também é parte intrínseca da história da St. James em suas mais diversas manifestações, seja através do design, das combinações de materiais, da multifuncionalidade das peças, dos acabamentos inusitados e das parcerias que transcendem o universo dos objetos da casa.

Nosso principal veículo, a prata, tem grande poder simbólico. É um material com ciclo vital maior que muitos outros e faz ponte entre o passado – a tradição, a história – e o futuro, pela durabilidade do material e do desenho atemporal dos produtos.

Para nós, os tempos em que vivemos marcam ainda mais a importância do lar e da família e de estarmos cercados por menos ruído e mais significado.

Em um mundo onde a maior parte das coisas são feitas para serem descartáveis, nossos produtos oferecem uma abordagem diferente, dando a quem os possui, o direito de acreditar que durarão para sempre.

Founded in 1976, St. James was born with the belief that the home is the most important place in our lives. We see the home as our sanctuary, our little island of comfort and well-being to shield us from the noise and stress of the outside world. We also strongly believe in the power of beauty to elevate our spirits, warm our hearts and help us lead a healthier, happier life. As such, our mission has always been to help make the home an ever-pleasant environment, where we can be surrounded by beauty and meaning everywhere we look. We do so by making beautiful, high quality, handcrafted design objects to entertain and decorate the home, always with a human touch.

Breaking the Brazilian aesthetic standards of that time, St. James was a pioneer in the manufacturing of pieces with modern styles and clean lines. In less than 2 years, we were already selling our products overseas, to customers in the US, Europe, the Middle East and Latin America.

Ever present in our DNA, the combination between craftsmanship, quality and design helped St. James become a reference in luxury products for the home. We favor the talent and mastery of the people behind each product, through the balance between material, design and the technique of the craftsmen who work the metal.

Innovation is also an integral part of St. James's history in its many manifestations, be it through design, the combinations of materials, the multifunctionality of the pieces, the unusual metal finishes and partnerships that transcend the universe of home accessories.

Our main vehicle, silver, has great symbolic power. It's a material with a life cycle longer than most and that bridges the past – tradition, history – and the future, for its durability and the timeless design of the products.

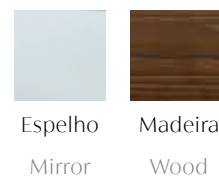

For us, the times we live in have highlighted the importance of the home and family, and being surrounded by less clutter and more meaning.

In a world where most things are meant to be disposable, our products offer a different approach, giving those who own them, the right to believe they will last forever.

O design sempre esteve no coração da St. James. Ao longo de nossa história tivemos o privilégio de trabalhar lado a lado com designers incrivelmente talentosos, tanto brasileiros quanto internacionais, em ascensão e consagrados, para criar produtos inspirados por diferentes experiências, histórias e pontos de vista.

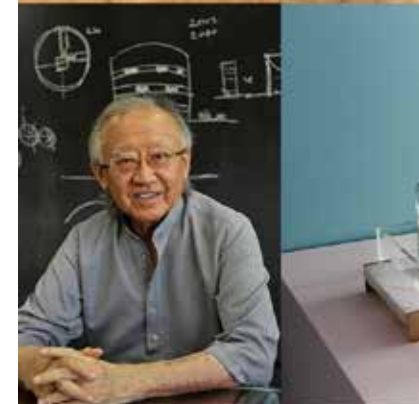

Uma assinatura (signature) pode ser definida como um padrão, produto ou característica únicos, através dos quais alguém ou algo pode ser identificado. Também pode ser interpretado como a marca mais íntima e pessoal de alguém, tal qual uma impressão digital.

St. James Signature é uma homenagem ao trabalho desses grandes artistas que colocaram tanto de si em nossos produtos, que agora passam a ser especialmente organizados para destacar sua significância.

Design has always been at the core of our company. Throughout our history we have had the privilege of working hand in hand with incredibly talented designers, both Brazilian and international, rising talents and well established alike, to create unique products inspired by different backgrounds, stories and points of view.

A signature can be defined as “a distinctive pattern, product, or characteristic by which someone or something can be identified”. It can also be interpreted as someone’s most personal and intimate mark, much like a fingerprint.

St. James Signature is a tribute to the work of these great artists who have put so much of themselves into our products, which are now especially organized to highlight their significance.

FERNANDA MARQUES

Fernanda Marques é formanda da prestigiada Faculdade de Arquitetura e Urbanismo da Universidade de São Paulo, a FAU - USP. A carreira de Fernanda segue a mesma linha conceitual que caracterizou seus anos de formação: o exercício integrado das várias disciplinas.

Arquitetura, Interiores e Design de Produto estão entre as áreas de atuação de seu escritório situado na Vila Olímpia, em São Paulo. Em todas elas, a manutenção de um único estilo: limpo e contemporâneo, sintonizado com o melhor da arte e do design internacionais.

É esta atitude multidisciplinar, combinada com um apetite incansável para o novo que fazem dela um dos principais nomes em atuação no cenário nacional e internacional. Realidade aliás, atestada por importantes prêmios internacionais recentemente outorgados à arquiteta, como o Design & Build Awards, o Global Excellence Awards e o iF Awards, para citar apenas alguns.

Fernanda Marques is a graduate of the prestigious School of Architecture and Urbanism at the University of São Paulo, FAU - USP. Fernanda's career follows the same conceptual line that characterized her formative years: the integrated exercise of the various disciplines. Architecture, Interiors and Product Design are among the areas her office, located in São Paulo, is involved with. In all of them is the maintenance of a single style: clean and contemporary, in tune with the best of international art and design.

It is this multidisciplinary attitude, combined with a restless appetite for the new, that makes her one of the main names in the national and international scene. A reality, by the way, attested by important international awards recently granted to the architect, such as the Design & Build Awards, the Global Excellence Awards and the iF Awards, to name only a few.

ESTUDIOBOLA

Desenho autoral e simplicidade formal. Esta frase é a espinha dorsal do trabalho de dois arquitetos paulistas formados pela Universidade Mackenzie. Flavio Borsato e Mauricio Lamosa estudaram juntos e fundaram o estudiobola há vinte anos em torno deste conceito, criando produtos com personalidade e simplicidade estudada à exaustão. Atualmente o estudiobola vislumbra outros horizontes e desafios e divide toda a sua expertise em design com o consumidor em seu próprio local de trabalho. Um galpão de uma antiga fábrica abriga a loja de móveis para uso interno e externo, luminárias e revestimentos com desenhos exclusivos e diferenciados.

Authorial design and formal simplicity. This phrase is the backbone of the work of two architects from São Paulo graduated from Mackenzie University. Flavio Borsato and Mauricio Lamosa studied together and founded estudiobola twenty years ago around this concept, creating products with personality and simplicity studied to exhaustion. Currently, estudiobola envisions other horizons and challenges and shares all its expertise in design with the consumer in its own workplace. A shed of an old factory houses the furniture store for indoor and outdoor use, lamps and coverings with exclusive and unique designs.
