

# Edition BBQ

JEROEN  
HAZEBROEK  
Special Edition

The BBQ Edition from Windmühlenmesser-Manufactur offers a large selection of special knives that make every barbecue an experience. From preparation to serving, there is the right knife for every food to be grilled, whether fish, meat or vegetables. The sharp blades of the BBQ Edition make work easier and the comfortable oak handles ensure a secure hold. We selected, developed and coordinated the knives with the renowned BBQ expert Jeroen Hazebroek from the Netherlands. With his experience and expertise, we have made this special selection of knives: a paring and vegetable knife, two bread knives with and without a saw, various chef's knives, two boning knives (rigid or flexible blade), a new variant of the pike saber as a portioning knife, and a brisket knife. A ceramic sharpening rod and a matching magnetic knife stand for storage complete the offer.

*Windmühlenmesser-Manufactur*
