Since 1932, Yaxell has been a major knife supplier in Japan. We have been contributing to the improvement of kitchen culture by supplying the superior quality kitchen knives. Our knives are used by the top chefs all over the world. Yaxell knives are becoming more and more popular also among discerning hobby chefs.

History and Tradition

The outstanding edge of the Yaxell knives has been achieved by combining the best of advanced technology with the unsurpassed knowledge and expertise of the craftsmen making these professional kitchen knives. Their skills have been cultivated in traditional Japanese sword making techniques, handed down from generation to generation over seven centuries in Seki, Japan, the capital of swords and knives.

Special heat treatment through accurate temperature control

Yaxell blades are heated in a kiln to a very high temperature and then ice hardened. Then, they are again tempered using high temperature to make the blade strong and durable with long-lasting performance. At the same time, this special heat treatment makes the blade corrosion resistant.

武久

TAKEHISA
211 Layers

Viva Reiwa, viva Takehisa!

Reiwa is an era name of the new emperor Naruhito.

Yaxell Takehisa features 211-layer Damascus blade with geometric pattern and beautiful black beech Pakka Wood handle with traditional Japanese Samurai family crest. The cutting core is made of special Micro-Carbide powder steel ZDP189, which could reach extremely high hardness – 66 Rockwell, enables to take and hold a particularly well cutting performance. Four Japanese Kanji characters are hand-engraved on the front side of the blade which means “Takehisa, the Samurai Spirit”. Our initial offering includes four traditional Japanese culinary blade shapes.

豪

SUPER GOU
193 Layers

Yaxell Super GOU YPSILON was created as an upgrade model of Super GOU 161 layers - the 2017 No.1 rated knife by wiki.ezvid.com USA.

From the SG2 Micro-Carbide powder stainless steel cutting core to the 193-layer blade and its elegant black micarta handle with the inlaid samurai family crest, all elements in this knife bring an exceptional gorgeous appearance to itself and supreme cutting performance to users.

On the blade, four Japanese Characters are hand-engraved meaning 'Super GOU, the Samurai Spirit'. YPSILON - the model's name - comes from the letter 'Y' in German language. The Y represents the Yaxell logo. A nice looking wooden Katana sheath is included in the product.

YPSILON is a registered trade mark of Yaxell Corporation. This word represents the initial letter Yaxell in old Greek language.

Super
豪

SUPER GOU
161 Layers

超豪 Super Gou goes beyond.

Blade

The blade core is made of ultra-hard SG2 Micro-Carbide powder stainless steel which is enveloped by 80 layers on each side with soft and hard stainless steel. The powdered SG2 steel contains a lot of carbon allowing it to reach the hardness of 63 Rockwell. Powdered steel is used because it ensures a high degree of purity and exceptionally sharp cutting edge. The surface impresses with a fascinating Damascus design pattern – a symbol of the highest quality knife and its signature, Super GOU, the Samurai Sprit by hand engraving.

161 layers SG2 (Micro-carbide) Stainless Steel cross section photo

Under microscope at 100x magnification
The core material is SG2 and is covered by 80 layers on each side.

Handle

The beautiful handle is made out of FDA-approved red-black Canvas-Micarta, which is an odorless and enormously durable material made of resin and linen. The Canvas material is dyed red and black and brilliantly finished. This material lasts decades. The handle is attached tightly using three stainless steel rivets. The handle is supported by the high quality 18-10 stainless steel inside, which gives the knife outstanding stability and balance. The trade mark 'GOU' is engraved on the grip end in a noble style. The shape of the handle allows tireless working in all cutting techniques.

Super Gou is a registered trade mark of Yaxell Corporation.

潔 KETU Key to the delicious dish

Yaxell Ketu is made of 3 layered stainless steel blade with powdered steel SG2 cutting core and elegant black beech Pakka Wood handle with Japanese Samurai family crest on it. On the end cap of the knife, unlike traditional stamping logo, a convex Yaxell kanji logo is added beautifully. Also artistic hammer pattern is stamped on the blade. Under special heat treatment process, SG2 steel is able to reach the hardness of 63HRC. You can enjoy cooking with Yaxell Ketu knives with the exceptional long-lasting sharpness.

Yaxell Ketu is a registered trade mark of Yaxell Corporation.

RAN
69 Layers

嵐 RAN runs the world.

Blade

The core material VG10 "super steel" is composed of Cobalt, Molybdenum, Vanadium and Carbon. VG10 stainless steel is clad with 34 layers of soft and hard high-carbon stainless steel on each side, producing 69 layered rust-resistant Damascus-look. The blade has an extremely sharp cutting edge. Under special heat treatment, the super steel VG10 is able to reach outstanding hardness rating of HRC61 on the Rockwell scale, ensuring long lasting cutting performance.

Handle

The handle is made out of FDA-approved black Canvas-Micarta, which is an odorless and enormously durable material made of resin and linen. This material lasts decades. The end of the handle is made out of stainless steel, which gives the knife outstanding stability. Two stainless steel rivets fasten the handle tightly.

37 Layers

Blade

The value Damascus knife was developed to meet the increasing market demand of "JAPAN FANS" in world markets. The core material is VG10 "super stainless steel", which is covered by 18 layers of soft and hard high-carbon stainless steel on each side, producing 37-layer, rust-resistant Damascus-blade. The hammer marks on the upper part of the blade make its look very artistic. Further, the logo is stamped, not etched. Of course the blade has an extremely sharp cutting edge by VG10 steel which could reach hardness rating of HRC 61.

37 layers VG10 (Cobalt-Molybdenum-Vanadium) Stainless Steel.

cross section photo

LIMITED LIFETIME WARRANTY

All Yaxell products are fully guaranteed against defects in material and/or craftsmanship.

POTENTIAL CHANGES WITHOUT NOTICE

Due to the drastic market changes or due to the change of production systems, prices, specifications and design of the products might change without advance notice. Products will be discontinued when the market demands decrease. Please check at the store or Internet shop carefully.

LIABILITY DISCLAIMER

Yaxell products are intended and sold for legitimate cutting purpose only. The purchase, use and ownership of products are subject to a wide variety of local laws and regulations of each country. Due to the complexity and constantly changing nature of them, it is the responsibility of the buyer to investigate and comply with the laws and regulations that apply in his area/country. The buyer is solely responsible for any claims resulting from violation of them. Any use of the products other than cutting is considered misuse and abuse and Yaxell Corporation is not responsible for it.

Unification of hand-engraving

To increase the consistency among Yaxell products, the hand-engraved Japanese Kanji characters on all series with hand-engraving (TAKEHISA, SUPER GOU, RAN PLUS) will be unified to “超多層鋼” which means “Made of Multi-layered Super Steel”.

超多層鋼
