

A CLOSER LOOK AT SUSTAINABILITY

Umbra is committed to continuously reducing its impact on the planet by making high-quality products that are designed to last.

To accomplish this, we are taking significant steps in 2022 to reduce waste, improve sourcing, and cleanup manufacturing.

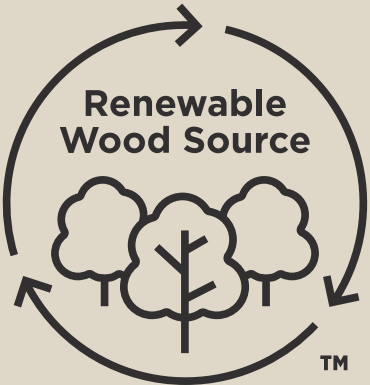

umbra.com/sustainability

More than half of our plastic products are made from 80% recycled plastics.

100% of the wood used in our products are harvested from renewable sources.

New eco friendly finishes for curtain rods produce 85% less solid and water waste.

We have eliminated Styrofoam and plastics from more than 80% of packaging.
