1. Super Power Cut

the blades are made of SANDVIK Steel 12C27 that granted the high power cut and long lifetime.

2. Ergonomic Design

the handle design has been carefully studied to give comfort and control for extended use.

3. Comfortable Grip

the handle material is incorporated with a substance that prevent the growth and propagation of bacteria and microorganisms.

4. Antiseptic

the handle material provides an extra grip even in wet and slip environment.
