

# Pewterware Care Instructions

- Hand-wash Only.
- After every use, apply lukewarm soapy water and use soft cloth to clean. Pat dry immediately.
- Avoid exposure to high heat appliances such as dishwasher, ovens or stoves.
- To restore it's shine, customer's can apply silver polish to restore the soft lustre of the metal.

TRICK: Pewter + Glass Products

Again, use warm soapy water, pat dry using soft cloth for a clean glass surface. To be stored and kept immediately — (To avoid breakage)

TRICK: Pewter + Wood Products

Use warm soapy water to clean and pat dry immediately. Apply a thin layer of vegetable oil on the wood surface until it is absorbed into the wood. This helps to extend possibility of natural cracking in wood. This also acts as natural coating to the wood for long lasting use
