

**Hypoallergenic mouthpiece**  
made of safe silicone

**OneTouch**  
button for quick opening

**Tight closure**  
to protect the mouthpiece from dirt

**Natural carbon filter**  
produced in 100% from organic ingredients – coconut shell. It removes the taste and smell of chlorine from water while retaining precious minerals

**Remember to replace the filter every month:**

- scan the QR code and add a notification to your phone calendar
- download the **Moje DaFi (My DaFi) app** which will remind you every month about purchasing a new filter for your bottle.

\* The most recommended and most frequently purchased brand among filtering products, source: Formaster S.A. based on surveys conducted by Difference, all-Poland sample N=1000 people aged 18+, with the use of the CAWI method, December 2022.

**Nr1**  
w Polsce

**Solid filtering bottle  
made of Tritan®**

**Convenient grip**  
for carrying

**Wide opening**  
for easy filling

**Two capacities**  
0,5 and 0,7 l

**Convenient straw**  
to drink without the need to tilt the bottle

## SAVINGS

Stop purchasing disposable bottles. Filter tap water with the Dafi bottle and save even up to 300 PLN per month.

## TASTE

The natural carbon filter removes the unpleasant taste and smell of chlorine without any loss of minerals naturally present in water.

## ECOLOGY

Stay eco! Use the reusable Solid filtering bottle. One filter can replace even 200 disposable bottles with a capacity of 0.7 l.

## CONVENIENCE

Thanks to the straw and the silicone mouthpiece, you can drink water without the need to tilt the bottle. The OneTouch button for quick opening allows for convenient and easy use.

## DURABILITY

The Solid filtering bottle is made of durable Tritan®.

## SAFETY

It is completely free from Bisphenol A and S
