

# reSTART

by reusing waste we start afresh

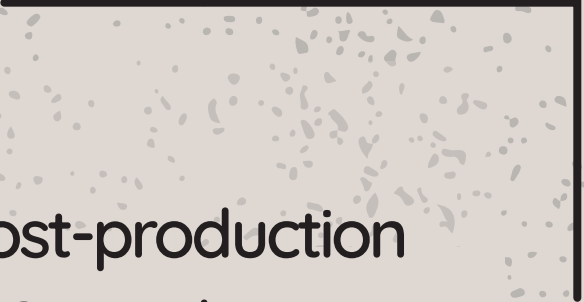

**york** 

YORK PL cares about the well-being and future of the planet, so the guiding principle behind the creation of our products is to **work in the spirit of a closed loop economy** and consumer education.

By providing **products made from recycled materials** we aim to give a push for change and responsible choices.

This is how **our newest product line reSTART** was created.

The idea of reSTART involves the use of post-production and post-consumer waste to produce YORK cleaning accessories. Our mission is to act in accordance with the principles of the circular economy. The reSTART collection products contain recycled plastic and natural shavings wooden.

ORIGINAL PP

- The brush base is made from recycled polypropylene, original polypropylene, and natural wood chips, which are post-production waste.
- Durable, flexible bristles made of 100% nylon guarantee a longer product life - the bristles do not deform, are very durable, and under the influence of water become sufficiently soft and do not scratch the cleaned surface.
- It effectively cleans standard dishes, but also those with rounded surfaces, such as vases, pots and bottles.
- The brush can be washed in the dishwasher at up to 60°C, so it is hygienic and will last longer.
