XTRA®

design

Established in 1958 XTRA has provided the world with insulating products for over 5 decades. Our innovative technologies and creative designs have consistently gone hand in hand with the enjoyment of tea & coffee.

We provide nothing other than constant perfection in our products, something we have always stood for. We have our own factory so we can guarantee our craftsmanship.

Designed in our UK studio we have consistently been awarded international design awards, our latest the coveted Red Dot Award.

Our excellent quality is not only our goal, it is what makes XTRA just a little bit better and what makes Xtra just a little more special.
