ABOUT US

AKCAM is one of the first and largest handmade glass manufacturers in Europe and one of the companies that exports to more than 100 countries.

Production facility and head office is located in Istanbul, Türkiye on 15.000 sqm area with more than 400 people.

AKCAM, which has an innovative and recycling dedicated production perspective, makes a difference with the technology it uses and the sub-brands it creates.

Complete and absolute compliance with rules and norms of quality, hygiene, environment protection and safety in all phases of production and marketing is an indispensable principle at AKCAM.

ABOUT US

The main principle covering all spheres of activity of AKCAM, ranging from pre sales to after sales works, is to make correct and right steps from the first, and to increase competitive power of the company by means of constant development.

Special importance is paid to perfect and flawless production, which is achieved through intermediate quality controls and systematic following, and in accordance with constantly developing technology related to this matter, relevant and appropriate trainings are offered.

At AKCAM, the main focus is on a team work, and therefore, high motivation is reached through synergy created by sharing all successes and failures with the personnel and customers.

WHAT WE DO

Our core business is glassware manufacturing worldwide. Every year with our own designers we develop different glassware products such as plates, bowls, centerpieces, vases and candleholders with aesthetic shapes that meet the requirements of the world's largest brands.

In our factory, 30 tons of clear glass is processed on a daily basis and these products are subjected to painting, real silver coating, gold foil decorating, decoration, ornamentation works, and reach the form of finished products in accordance with the customer demands.

Spinning, free-form shaping, air press, schiller and blowing techniques are used in our production facility.

AKCAM leaves its mark on the uniqueness of nature and integrate all parts of it in every corner of your home. If you want to see more,
