Christmas Range

Christmas Storage is becoming an increasingly important part of our storage portfolio.

Currently this represents around 10% of our annual turnover and is growing year on year.

Christmas storage due to its very nature is about storing valuable and sentimental items in a safe manner over maybe 11 months of the year. Wrapping paper storage is also a great way of fully utilising all the wrapping papers you buy, and is a great and easy place so you can remember where your surplus papers are kept safely.
