

Quality Nestables

Really Useful Box®

Really Useful Products Ltd design, manufactures, markets and distributes a range of innovative plastic storage solutions. Our range now includes stacking boxes, nestables, trunks, organisers, drawer towers and folding boxes.

We produce the majority of our products in our own manufacturing facility in the UK. We have collaborated with a large USA storage retailer on the design and development of this new range of Quality Nestable Boxes. They have similar wall thicknesses as our stacking boxes so have all the durability of the rest of our range.

This range has normal, XL and crocodile split lids. The crocodile lids also feature a locking handle which is a new innovation.

All handles used in the boxes are manufactured from 100% recycled plastic. The boxes can also be supplied in 100% recycled plastic bases and lids in a range of colours.
