ACCESSORIES FOR SPEED OVENS

A WHOLE NEW LEVEL OF RAPID SERVICE

SPEED OVEN — — ACCESSORIES

Looking to boost your food-service business with speed oven?

AMT's new range of speed oven accessories can accelerate cooking times without compromising quality.

When using speed ovens it's important to select the right type of accessories, which will help you not only to prepare your products in the right way but also more efficiently.

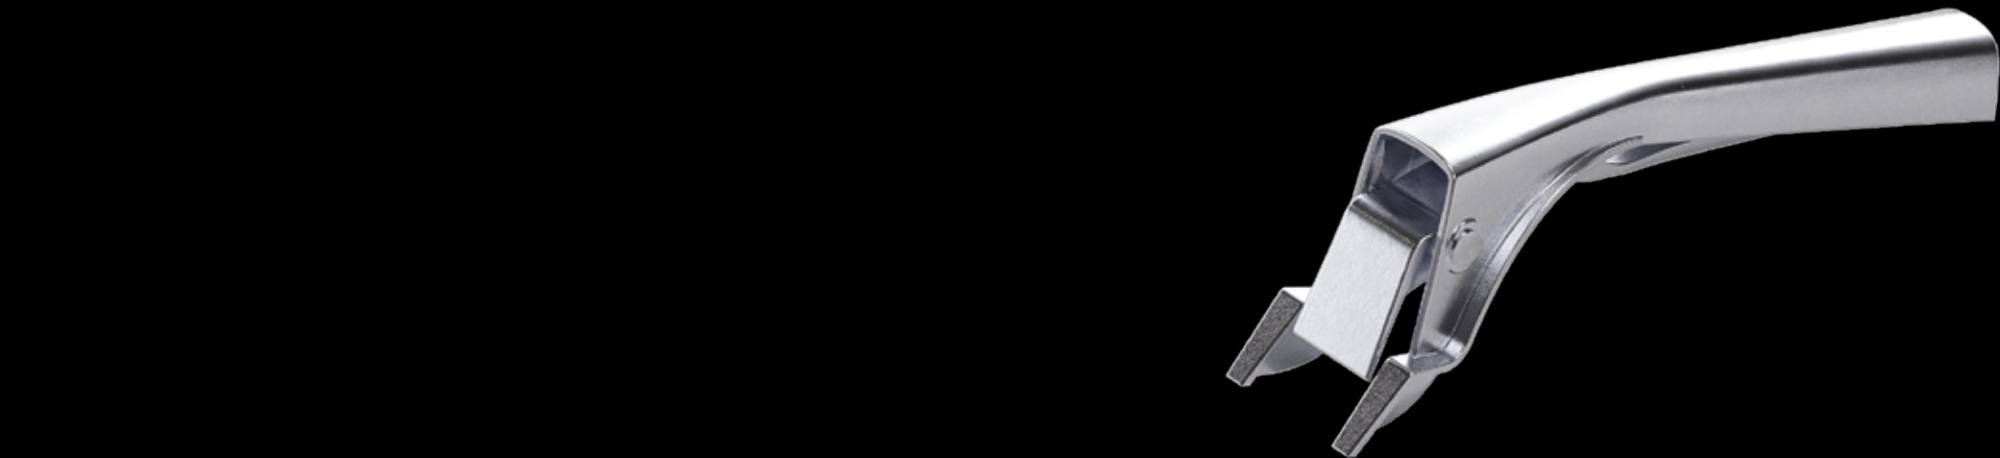

AMT Speed Oven Accessories are perfect products for warming, browning, and baking in fast service:

- solid design
- high-temperature performance
- high-speed efficiency
- easy to work with
- exceptional Lotan® non-stick surface
- no need to grease or use baking paper
- no need to use silicone mats
- effortless cleaning
- less energy and water used

Special stainless steel pliers can be used while removing AMT speed oven accessories from the oven, which limit the chance of personal injury from burning. No need to use any cloth or silicone mats to grab hot plates from the oven. AMT pliers support easy and comfortable work with our accessories.
