KL321GM-E

New multi-function grater & peeler

This is a product that combines the grater and the peeler.

The peeler is placed on the handle of the grater, which saves space and is not easy to lose. When stored together, it does not affect the use of the grater, and can be used independently of each other.

Both the peeler and the grater take into account the way of retractable receptacle or protective cover to protect the product, while satisfying the user's safety.

Customer's cooking behavior is usually accompanied by grating after peeling, so this product can well meet this complete behavioral need.

KL321GP-E

The two-in-one product has more safety than the products on the market by adding protective cover and retractable form of peeler blade.

Wood handle grater

The wood handle combines nature and industry, making it more environmentally friendly, durable, and comfortable to the touch.

Punched Grater

Punched Grater

Consider getting rid of all the other graters and slicers. Coarse grating, Medium grating, Fine grating/Zester, and even a Slicer - all in one convenient tool.

Quickly prep an array of foods like cheese, potato, squash, zucchini, carrots, lemons, and cucumbers.

Sharp Stainless Steel blades get the job done quickly and result in cleanly sliced and grated food. The removable anti-slip rubber bottom keeps you safer and prevents slipping.

It is dishwasher safe for easy cleaning.
