## COMPANY PROFILE

Established in 1989, Javana Graphics is a family owned company that has made an immense contribution to the Sri Lankan market. We are a small but rapidly expanding company and we are fast approaching the goals we set out to achieve. Products manufactured through Javana Graphics are marketed under the Panther brand name which was established in 1999.

Javana Graphics has a fully equipped printing press and is situated in the Ratmalana Industrial Estate. As a part of our plan to showcase our diverse product line, we opened a showroom at No. 249, Hospital Road, Kalubowila in June 2007. Thus our client base has increased considerably and continues to grow.

We operate with a staff of over 70 employees and about 85% of the staff are young school leavers. We take great pride in harnessing fresh ideas and talent in our young workforce. In recent years the female presence in the work place has increased rapidly, where close to 60% of our workforce is represented by females.

We ensure employee safety and good conditions are maintained and always strive to ensure that the Panther team enjoys their work. Ongoing training and development is paramount as it ensures that our clients receive the best quality products the market has to offer. Therefore the staff of Javana Graphics are provided with in-house training and regularly evaluated in order to maintain the highest standards. Restructuring our production techniques and regular upgrading of our machinery has become a common practice.

Our range of products manufactured include,

- Filing & paper storing products
- Office registers and stationery
- Colorful range of notebooks & writing pads
- Wide and creative range of educational activities, toys and games

All Panther products are paper based and are of the highest quality standards.

Our flat organization structure together with the entire production facility located in one area is our strength. We are also able to customize our products according to the customer's requirement.

## Vision

A fun way of learning and creating solutions for organized work space.

## Mission

Every child needs to be given the opportunity to learn in different ways, we help them to achieve this by providing innovative activity based learning products. Creating a more productive and organized work environment.
