SERVING MORE THAN
70 COUNTRIES
ACROSS THE GLOBE

2019 Product Catalogue | www.kingmetal.com

King Metal is proud of its tradition of satisfying its customers. We are driven by the goal to provide quality, innovation and service that exceeds our customer's needs. With the fast changing trends globally, the customer is always asking for more innovative products and shorter response time. Our team here is dedicated to deliver this always. Hence we provide everything to our customers from more than 3,500 products to choose from to a wide variety of packaging solutions. Our competitiveness and ethical practice have helped us to retain customers who are doing business with us for over three decades.

About the Company

We, at King Metal Works take great pleasure in presenting our company to you. We are proud to be one of the leading manufacturers and exporters of diversified range of hollow ware, flat ware and fabricated products of sheet metal in the country. We offer you end-to-end solutions (from manufacturing to packaging) for kitchen ware, table ware, bar ware, pizza supplies, bake ware, wire products in stainless steel, aluminium and brass for hotels, restaurants and home use. We also manufacture deep drawn and fabricated OEM parts for kitchen equipments and appliances.

Global Presence

We believe in sincere commitment to the pursuit of quality for customer satisfaction. Having one of the largest ranges of over 3,500 products these are exported to more than 70 countries worldwide. Our product range is ever increasing as we develop new products every month.

Our Operations

Head office location: We Operate through 5 state of the art plant. Our Head office and 2 plants located in the heart of the city and just 2 kms away from the Mumbai International Airport. We have qualified engineers in production, quality control, purchase, marketing and research and development.

Experience Counts

We began operations in 1970. A privately held and a family managed company, we initially manufactured engineering components for air conditioners and water coolers and did fabrication work for pharmaceutical companies. This gave us a wide range of experience and a deep understanding of manufacturing 'quality engineering products'. With this immense experience, within three decades, we started and expanded our operations to become one of the leading government recognised export houses and simultaneously winning many accolades on our way.
