RATAN PAPERS

Taking a leap, the group thought of extending the art and process of Hand-Block and Screen Printing on **RECYCLED PAPER**. The thought lead to the establishment of Ratan Papers in the year 1992. Ratan Papers, the name became a synonym to a premier manufacturer of eco-friendly recycled paper and paper products.

Our strength lies in the ability to give our customers a complete in-house facility with a skilled workforce in all the stages involved in the product development and production process, we thereby ensure innovation in design, quality in production and ability to make timely deliveries.
