INTRODUCING  
**BLOCK  
PRINTING**

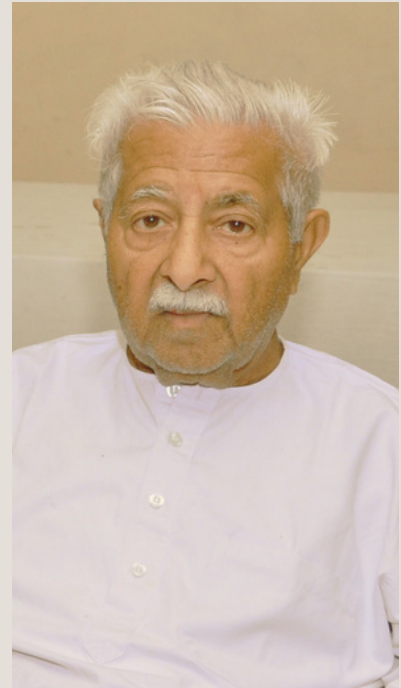

# Our History

---

Our company, founded by Mr. Longmal Khatri, has come a long way since its humble beginnings. In 1947, He migrated to India from Pakistan during the partition. Although he left with nothing, he had a wealth of experience in block printing which he began implementing in India.

Initially, he began selling fabric roadside and would wake up at 4am to book the busiest spots to generate more business. With time, his business began to grow, and eventually he bought a shop in the heart of the city in 1958. With his excellent quality of block prints, demand for his products increased significantly.

With the aim of expansion, his sons, Ramesh, and Hira, joined the business. Together they started an export business. The company's export business went from strength to strength, and our reputation for delivering quality products became the cornerstone of our success.

---

Today, we are one of the most recognized businesses in the industry, and our vast experience is a testament to that. Over the years, we have continued to build on our experience, expanding our product range and working with different partners, both nationally and internationally.

At KhatriTex, we blend block printing's beauty with sustainability. Using eco-friendly materials, natural dyes, and sustainable methods, we reduce our footprint while preserving traditional craftsmanship. We foster nature appreciation, inspire ethical choices, and weave a greener, vibrant world for generations to come.
