LÜBECH LIVING

**Care for Tomorrow -
Shape the Future!**

*"We had a dream
and a mission as
early as 2009"*

- Søren & Susanne Lübech

Lübech Living was founded in 2006. We work within the business of interior, lifestyle and home decoration. Back in 2009 we turned our full attention on sustainability. Lübech Living design and produce our own brand OOhh and OOhhx. We work as the European distributor for Vance Kitira Candles and we are the Nordic distributor for the well known italian brand UASHMAMA.

The OOhh Collection is a unique combination of stylish and timeless Danish design and the use of special selected recycled materials. All OOhh products are made in Sri Lanka by strong and proud women working from home earning an important extra income for their family.

We are privileged to be part of this project and to witness a positive change in their local area.

OOhhx is a unique collection in the OOhh range which is designed and produced from the same values as our OOhh Collection in countries as Sri Lanka, Vietnam and Europe. Common for our OOhh and OOhhx products are that they are all handmade, developed from recycled materials and part of a sustainable production. And of course always with that extra OOhh detail.

Our customers are always our first priority.

With Love

Søren & Susanne Lübech

Carefully Created Collections

Earth- and people- friendly production

Lübech Living work with only a few suppliers as we prioritize a very close collaboration with each of them. This way we can follow the process closely and make sure that our products are produced under good social conditions and in an eco-friendly way.

CAREFULLY SELECTED MATERIALS

Zero Waste Paper

Made of excess paper from our own production.

100% Recycled Paper

Which we turn into new handmade designs.

Recycled Plastic

turned into Danish Design.

100% Recycled Glass

Mouthblown and handmade.

Handmade Ceramics

produced using solar energy and water recycling.

Hand Poured Certified Candles

Asthma and allergy friendly candles tested free for cancerous particles when burning. Made from 100% refined food grade paraffin.

Leftovers from the Textile Industry

There is a massive over production of labels globally. We turn the excess labels into new designs.

Leftover Wool

A new collection made of excess wool from the glerups shoe production.

Natural Cork

Made of cork from Cork Oak Trees. A 100% natural, biodegradable, anti-bacterial, renewable, recyclable and CO2 friendly material.

#oohhcollection

RECYCLED PAPER

HANDMADE
through social responsibility projects

Pots . Trays . Bowls . Vases

Our recycled paper collection offers a wide variety of flower pots & interior. The collection creates a perfect harmony when mixed with other design led products and unique handicrafts. Simple, stylish and as always with that extra 'OOhh' detail and story behind.

The OOhh products are handmade and therefore all unique. As a result, colors and sizes may differ slightly from the text and photos.

Biodegradable

Tokyo **Eco-nesting:** TC11, TC13 and TC17
/ 100% Recycled paper pots and vases, with cement finish - Waterproof.

Waterproof

Our paper pots with natural latex lining are all waterproof for your flowers and green plants.

The Iconic Ohh
Tokyo Collection

An Eco-Friendly Choice

Sustainable design since 2009

Care for tomorrow - shape the future!

Lübeck Living is considered a strong role model in the sustainable interior industry having focused on sustainability since 2009.

We enjoy designing and creating beautiful decor from recycled materials!

We are proud to have been part of the womens project in Sri Lanka for 12 years and constantly strive to be innovative within our industry.

Sustainable production

Made by hand

All our products are made by hand and therefore unique.

Social responsibility

Dries in the sun

SUSTAINABLE FACTS

Natural latex is used to waterproof our pots.

We turn excess paper into new paper.

All our paper pots are biodegradable

We dry our paper & paper pots in the sunlight.

We work with less privileged women in Sri Lanka.

To reduce our CO2 footprint we nest our paper pots

ECO-FRIENDLY PACKAGING SYSTEM

Eco-nested

Since 2020 several of the OOHH pots are nested. For products with an Eco-nested symbol every second pot will be slightly wider so we are able to nest two pots of same height in order to help reduce CO₂. Let's go green together.

Recycled Packaging Boxes
We use recycled paper when producing our cardboard boxes.

When shipping to our customers

Instead of throwing out cardboard boxes from our suppliers, we reuse them to pack your order. We hope you will treat the waste with care. If you receive any plastic filling please note that it is 100% waste material from businesses in our area. We only use recycled plastic.

Once I was paper waste...

Today I'm a piece of timeless design ready to add atmosphere to your interior

If you leave me in the nature I will biodegrade

ZERO WASTE

Our Zero Waste Concept enables us to reuse all excess paper material from our main production. Internally we turn the excess paper into new material and therefore no transport of our waste material.

The softness of the OOhh Zero Waste Paper is ideal to create structures and patterns, and we are proud to extend the collection with new designs and colors for our FW22 Collection.

From waste paper to new handmade paper

The sense of the sustainable lifestyle already began in the childhood home

Small communities showing creativity with their resources

As part of a dance company Susanne and Søren started travelling together as teenagers to destinations in Asia and Africa. Here they quickly discovered how small communities get the maximum out of the limited resources they have available. The use of recycled materials and the craftsmanship of the artisans fascinated them. When returning home they unfortunately also realized that the beautiful products they purchased did not fit into the Scandinavian interior style.

Sustainability and design must go hand in hand

Back in 2009, when Susanne and Søren decided to focus purely on sustainability and social responsibility they knew that they had to make beautiful Scandinavian designs to make it a success. Sustainability was not a valued asset at that time. Therefore they decided to show the world that sustainability and social responsibility can be united in beautiful design.

“

We want to show the world that sustainable interior and social responsibility can be united in beautiful design”

Why sustainability as early as 2009?

Because it made sense. After years of working and doing business in Asia, Susanne was eager to get away from the industrial business standards in Asia. Susanne wanted to work with something more meaningful matching her personal values.

Pure happiness shines from Susanne's eyes when she looks back at everyday life in her childhood home. This is where she was inspired to get the maximum out of all resources and taught to share all of your leftover materials with others. She clearly remembers how the neighborhood came to the garage of the family home to pick up single bolts, nails and pieces of wooden boards. Her father always saved these thinking that every household should not have to buy a full box when only a few was needed.

Follow Lübech Living's sustainable journey

It all started in Sri Lanka with a man saying "I know your candles and I know you care about the environment. I can make recycled paper waterproof". That was the beginning of a lovely collaboration with our Fair Trade project in Sri Lanka.

2010

We launched the first OOHH Recycled Paper Pots with sand finish made by less privileged women in Sri Lanka.

2009

Actually it was not in 2010. Vance Kitira already gave us inspiration for sustainable thinking in 2009.

2012

Lübech Living were nominated for the Formland Design Award with the innovative OOHH creased paper pot on wooden base.

2018

We launched the first OOHH recycled glass collection.

2015

We decided to start a new womens project in Vietnam in line with our Sri Lanka womens project. Resulting in the introduction of the OOHH weaved basket collection.

2013

We introduced the popular OOHH Eco-Felt made from recycled plastic.

2018

We developed the unique OOHH Zero Waste paper. Made of leftover paper from our own production.

2019

We designed our first sustainable ceramic collection produced using solar energy and water recycling.

2021

We have entered a new collaboration with glerups on their felt waste material.

2021

To celebrate 10 years with recycled paper pots we paper pot design known for its sand finish.

2022

After years of considering and researching we introduce the cork material in 2022. We have now had the time to study the cork material and get to know its sustainable profile.

We can't wait to see where sustainability will take us next

RECYCLED GLASS

HANDMADE
/ Mouth Blown

Vases . Jars . Flasks . Candle holders

The first addition to the OOHhx collection was the range of beautiful mouth blown recycled glass specially selected from a renowned European glass factory. Stunning and timeless shapes combined with fabulous colors and finishes.

In perfect synergy with the other OOHh products.

The OOHhx glass collection is made from 100% recycled glass and each item is therefore unique. As a result colors and sizes may differ slightly from the text and photos.

VAD13 & VAD21 are perfect for flowers, storage and candles.

EVERY SUPPLIER IS CAREFULLY SELECTED

We carefully select suppliers who always strive to be even more sustainable tomorrow than they are today. That's why it is a pleasure to have a close collaboration with our European suppliers of the OOHh glass.

#oohhcollection INTERIOR & OFFICE

HANDMADE
by social responsibility projects

Trays . Baskets . Hangers . Racks . Frames

Our everyday lives are moving at a high speed. As a reaction the trend “Slow Living” has grown. It makes us decorate with keywords such as “calm” and “cozy”. OOhh collection is handmade from warm materials which helps you create rooms with a cozy and calm atmosphere.

The OOhh interior collection now stands out even stronger than ever before with an extended collection of candle holders and baskets. The basket collection offers truly stunning designs for all kinds of storage and perfect for the home office trend. All handmade from our popular recycled materials.

Outdoor Friendly Zero Waste Wool Collection

/ Waste wool from glerups production / Outdoor friendly

We reuse excess wool from the glerups production and create warm cozy Nordic inspired designs.

Wool is antibacterial, 100% biodegradable, stain resistant and can keep both your coffee warm and your wine cold through it's isolating effect.

New Collection

A multifunctional Cork Collection

/ 100% natural cork

Lid, candle tray, coaster or Bulletin board

This season we are happy to introduce a new collection made from the sustainable material cork. Cork is a 100% natural material and in the absolute top of the scale as a biodegradable, renewable and recyclable material. Cork is CO2 friendly and no trees are harmed in the harvesting of cork.

The OOHH cork collection is designed to be used in multiple ways. Use it by itself or in combination with many of the other OOHH and Vance Kitira products.

#oohhcollection CERAMICS

HANDMADE
using solar energy

**Vases . Pots . Bowls . Carafes . Trays .
Penholders . Candle Holders . Egg Cups**

A range of beautiful designed ceramics are part of the popular OOHH collection. The products are produced using solar energy and water recycling and therefore following the strong DNA which Lübeck Living is so well known for in the interior business. The products are shaped with beautiful lines and details. The colors are well balanced and fit perfectly with the stunning designs.

OOHH Ceramics O1, O2 and O3 are the perfect supplement to the benchmark products from the OOHH collection.

CHRISTMAS

HANDMADE
in Sri Lanka

Ornaments . Trees . Stars . Advent

The popular OOhh Christmas collection is once again complete with new fabulous designs in the characteristic OOhh recycled materials; EcoFelt, felt, paper, wood, hessian, the OOhh Zero Waste paper and Zero Waste Wool.

Traditional shapes and symbols are updated and transformed to create that special holiday feeling and still fitting perfectly into any home décor. Beautiful subtle colors with those extra OOhh details.

The OOhh products are handmade and therefore all unique. As a result, colors and sizes may differ slightly from the text and photos.

Ohh Zero Waste Christmas

We love turning excess materials into new designs!

We used to have 20.000 kg of paper waste in our production per year. Today we turn it all into new paper with lovely patterns. We call it **Ohh Zero Waste Paper** and use it for our Christmas decoration among other products.

We also use **Zero Waste Wool** from the glerups shoe production to create warm cozy Nordic inspired Christmas decoration.

Handmade candles

OUR RETAILERS SAYS:

“Customers who start using Vance Kitira candles always come back for more. I have my regular customers who buy the candles because of asthma in the family.”

- Balsalen, Århus

“My customers really like the story but especially the colors, long burn hours and the fact that they are allergy friendly are of great importance to them.”

- Blomstertanken, Gilleleje

Christmas time is Candle time

Certified Clean Candles

Why not do like many of our loyal retailers and create a great collection of pure clean candles for Christmas. It helps your customers and their families to enjoy a clean indoor environment during the holiday season.

VANCE KITIRA

HAND POURED
in Thailand

Candles . Candle Holders

Certified candles with no emission of harmful or cancer causing particles.

Vance Kitira was established in 1993 by Thai forester Vance Kitira. The success behind the brand is derived by Vance's own love for nature and his unique ability to translate it into fashionable products, while protecting nature and its inhabitants in return - and the belief that ecofriendly is far from equal to high prices.

“As a brand we have seen our image stronger under
Lübech Living marketing and distribution.”
