TIPS FOR INST ALL

1 /

STEP1. Cleaning 吸附面清潔

吸附前先將吸附面擦拭乾淨· 吸附面不可留有棉絮或灰塵· 避免吸附後掉落。

Clean the contact surface before attaching the suction cup and make sure the rubber pad is clean is dust free.

2 /

STEP2. Press 壓

吸盤產品在吸附面時需保持平行· 並確定將空氣排出。

Firmly press the suction cup to the contact surface 2-3 sec. to remove the air underneath.

3 /

STEP3. Lock 扣

確認空氣排除後· 將扣板扣上· 確保吸盤吸附面為真空狀態。

Pushing down the lock while pressing on the suction cup.

4 /

STEP4. Check 確認

確認吸盤牢固吸附後· 始可掛物。
確認吸附面材質是否為不透氣表面。

Check that if it is firmly attached to the contact surface before use.

***Unsuited for :

Porous surfaces such as paint walls, concrete walls, paint walls, natural stone, wood, wallpaper, and cracks or without glazed tiles, etc.

1. Do not overload.
2. Please do not use it to hold valuable or fragile items.
3. Surface must be clean before attaching suction cup.
4. Do not attach the suction cup to the surface which is smaller than the rubber pad, uneven the rough surface over 0.4mm.
5. Always confirm the suction cup attached well. (It is suggested to clean the attached surfaces and reset the suction cups every 2-3 months for more durable use.)
6. It can be used by adhesive tape, clean water, or alkalescent cleaning gel to clean the rubber pad, then set up the suction cup in dry place.
7. Please release the lock while not attaching to the surface, and maintain the surface of the suction cup to be flat.

***可吸附於：
