**Company Profile**  
**2023**

The background of the slide is a warm, orange-toned image of a glass manufacturing process. In the upper left, a glowing mass of molten glass is being shaped. In the foreground and midground, several finished glass products, including a large mug and various smaller vessels, are visible, some resting on a conveyor belt or cooling surface. The overall atmosphere is industrial and artisanal.

# Introduction

In 1986 City Glass lit the torch of development in the sky of the glass industry, and since that day the map of glass industries in Egypt and the Middle East has changed. In City Glass, we are certain that our industries stem from the heart, so you always see the difference in our products, and we also believe that the trust relationship between us and our customers is always our capital, which supports us and always pushes us forward. In City Glass, we are always proud of our Egyptianness. Our industry takes place on Egyptian lands and with Egyptian hands, to show the whole world that our Egyptian identity is reflected in our industry.

Cityglass

## About Us

About us CityGlass is a manufacturer of glass tableware and glassware products. The company's products include mugs, stemware, cups, bowls, vases, cake plates, glasses, tins, dessert sets and all kinds of tableware.

## OUR MISSION

City Glass was established in 1986 with the aim of leadership in the field of glass manufacturing. Since the first day, we in City Glass have taken upon ourselves the goal of developing the industry in Egypt and the Middle East. We use the latest types of equipment in our factories. We rely on technology and therefore we rely on fully automated machines. The latest model, and this is what helps us to produce more modern products and convert them from simple products to high-quality and modern products that suit the speed of progress and development of that industry.

## OUR VISSION

Our vision We always look forward to leadership in the field of glass industry, and to be present in each and every corner around the globe while providing opportunities for expected successes for all its employees.

CITYGLASS

## OUR GOALS

# Our Story

7

In 1986, City Glass was established in front of a great challenge, which is leadership in the glass industry. Since the establishment of City Glass, we have faced many challenges to reach the goal that we desired from the beginning, since 1986 until this day, history tells about us and history reminds a clear imprint of City Glass. In the glass industry, but we did not always seek just fame devoid of achievements, we always sought to leave a mark in the local and global market, and to chart a correct path that always suits the importance of our industry so that everyone who participates in that industry can follow it, City Glass always enlightens. The way for the makers of this field to innovate, so we had to take care of our factories, and all the factors involved in our industry, so we relied on the best manpower, as we relied on semi-automated and fully automated presses, to ensure access to the best manufactured items with high and wonderful decoration. Very worthy of the name of City Glass and the name of our customers.
