## COMPANY PRESENTATION

### PROFILE

The company, founded from the Salvinelli siblings, exists from some decade and is situated to Lumezzane Pieve, in the heart of the specialized area in the working of steel since ever. Beyond a quarter of century, the Salvinelli siblings dedicate themselves exclusively to the creation, design, working and sales of own cutlery in stainless steel. All the production process comes realized in consideration of the taste and market trends of the more and more demanding customers in term of quality and service.

### KNOW HOW AND SPECIALIZATION

During the years, the Salvinelli has had to obtain a high degree of specialization in the production of its own cutlery and products show one thickness up to 5 mm. The Company takes advantage of staff much qualified witch always remained the same one to operate to the inside of the same one company. Designs and moulds are entire planned and constructed from a team of specialists always to the search of innovative techniques in order to obtain Italian quality products in the van of the reference markets.

### PRODUCTION FLEXIBILITY

Peculiar and characteristic aspect of the Salvinelli is to decide of a wide flexibility during the production process. Salvinelli is capable to produce articles with client references, packing and contents per single carton in order to meet the more and more demanding demands of the clients.

### ATTITUDES TOWARDS CUSTOMERS

In a world strongly oriented to the service, the Salvinelli, always careful to the evolution of food and styles of life of people, has the papers in rule for positioning itself in terms of courtesy, customer's satisfaction and respect of delivery of products. We are convinced that all these features have a fundamental importance for the customers.
