About the Company

Mabuhay!

South Seas Native Treasures has delighted customers with quality products for over 40 years. Recognized as the premier manufacturer and exporter of Acacia Wood products in the Philippines, our master artisans hand-turn each bowl, plate, and dish from a single piece of acacia wood, turning out products that are as known for their durability, sophisticated style, lustrous finish, and intricate grains.

Our woods are ecologically forested from private lands and certified by the Department of Environment and Natural Resources. Acacia wood is fast-growing and non-endangered.

The company is located in Laguna Technopark in Biñan, an hour's drive south of Manila. In 2010, South Seas Native Treasure became a registered member of the Philippine Economic Zone Authority (PEZA), which champions outstanding companies specializing in export manufacturing. Over 90% of our products are made for export, and we ship products to customers in Europe, Asia, and the United States.

As an export company, we understand the needs of our foreign customers. Each product is individually wrapped and hand-inspected before shipping. We use high-quality shipping boxes and can print and apply customer-specific barcode labels and product tags.

At South Seas Native Treasures, we build long-lasting partnerships by delivering the right products, complete and on time.

ABOUT THE COMPANY

Our Vision

We will be the supplier of choice by our customers, the customer of choice by our suppliers, and the employer of choice within the industry.

Our Mission

We are committed to being the premier exporter of handicraft items originating from the Philippines, ensuring the our products are available worldwide.

To accomplish this mission, we believe we must:

- Be an industry leader in our selected products' sales, marketing, and distribution.
- Be an innovative leader in the development of new products and business services.
- Maintain the highest standard of ethics and integrity in every action we take.
- Always be fiscally responsible and profit-generating to remain in business and meet our customers, suppliers, and employees' responsibilities.
- Maintain the highest respect for people - their talent, interests, and dignity.

Environmental Policy Statement

South Seas Native Treasures is committed to minimizing the potential impact of its activities on the environment.

We will therefore strive to conduct all our operations in compliance with all the relevant environmental legislation and will endeavor to use pollution prevention measures and incorporate environmental best practices in our operation.

Our People

Ever since the company had its initial shot in commerce up to this day, South Seas Native Treasures has consistently regarded its people as the significant drivers of growth and development, without whom it would have been challenging to pledge excellence of products to its customers.

As part of our continuing efforts to meet our customer's requirements and persistently improve the products that we offer, we have a team comprised of master artisans and competent professionals adapting and continuously evolving to create handmade products with the highest standards.

Our team's focal approach is dedicated to attaining the best quality, value, and stylish products worldwide.

Acacia Bowls

Our Acacia Wood bowls feature rich, sweeping grains of the highest quality. All of our bowls are hand-turned from a single block of Acacia, making each piece an actual work of art. These skillfully handcrafted bowls showcase the rich contrasts of color and grain intrinsic in eco-friendly Acacia Wood.

Acacia Plates

The finest artisans handcraft these Acacia Wood Plates to make dining an unforgettable experience. A combination of function and form, these plates will add an artistic flair to any meal.

Acacia Dishes

Perfect for entertaining, these Acacia Wood dishes are both attractive and functional. The sweeping, rich grain patterns from each hand-carved piece add style and elegance to any home or office.

Our Products

Our Products

Acacia Cutting Boards

Mince, dice, and chop your favorite ingredients using these beautiful hand-carved Cheese and Chop boards. Each high-quality board is solid and durable for long life and service.

Acacia Salad Servers

These hand-carved servers are easy and convenient to use. Made to resist stains and discoloring, they are perfect for indoor or outdoor dining. Amateur to professional chefs are sure to welcome these functional utensils and bowls as beautiful additions to any table setting.

Specialty Items

These Acacia Wood Specialty Items are designed to give you an extra hand while giving your kitchen an added touch of style. These items are as useful, as they are elegant.

Certifications

At South Seas Native Treasures, we stress great emphasis on the value and consistency of the products that we offer. We do business fully amenable to international standards and have been certified under the Department of Environment and Natural Resources, SMETA, and Walmart audit.

Sustainability

Here at South Seas Native Treasures, we are committed to keeping the Philippines a lush and sustainable place for the present and future generations.

Regarding our company's environmental impact, we strive to maintain and achieve sustainable forestry practices. At South Seas Native Treasures, we define the practice of sustainable forestry as meeting the needs of the present without compromising the ability of future generations to meet their own needs. Our company has achieved and sustained this practice in a few ways.

First, all of our wood is ecologically forested from private lands and is certified by the Department of Environment and Natural Resources (DENR). Second, we always encourage the forest landowners we source our wood from to reforest following harvests and use the best land management practices.

As corporate social responsibility is a cornerstone of our company's culture, we hope to be able to continue the Plant a Tree program and our commitment to the conservation and protection of our environment. We are confident and hopeful that our efforts will have a lasting positive impact on the community for years.
