The Art of Marquetry

Marquetry is the fine art of creating inlaid images or pictures with wood veneers. By carefully selecting various species of woods based on their colour, figure and grain texture, we can create beautiful patterns. Other materials, such as shells, stones, metals and brass can be used to enhance the desired effect of the image.

The process became popular in France in the late 16th century and received an enormous stimulus in the two following centuries as the European economy started to expand and created a demand for luxurious domestic pieces of art.

Manopoulos inlaid Backgammon sets are unrivaled in design, style, craftsmanship and beauty.

Transcending time, each inlaid backgammon set is a unique piece and radiates emotion when used.

OUR COMPANY

Each game set tells its own little story...

Manopoulos Company has been creating premium quality board games since 1970. Our uncompromising demands of style, materials and workmanship are reflected in all our game sets. Each backgammon and chess set we design, carries a part of our soul and legacy.

It's your turn to roll the dice!

We long to make you part of our tradition by establishing an invisible bond between you and each article of our game sets. By owning a Manopoulos game set, you literally escape from the everyday reality and you create your own tales while enjoying quality time with friends and family.

Minimalism is an extreme form of abstract art developed in New York in the 1960s and typified by artworks composed of simple geometric shapes based mostly on the square and the rectangle. Aesthetically, minimalist art offers a highly purified form of beauty. It can also be seen as representing such qualities as simplicity and harmony.

OUR CHESS COLLECTION

Manopoulos is proud to introduce the Chess Collection, with great cultural value and timeless design. Our Chess Sets are the result of gifted sculptors' work, designers and craftsmen with a deep respect for the ancient, Greek civilization and European History.

The figures are inspired by the most famous marble works of art, while their themes are chosen in such a way as to offer a hint of our very long history and fascinating mythology.

For over 45 years, we create chess sets through the use of the most advanced technology of die casting and metal plating, while the sets are varnished and finished off by hand.

Our backgammon and chess sets are not just for playing. Our games become a way to fight the dictates of standardizations. Manopoulos Chess and Backgammon are translated in a sophisticated, refined and design-led aesthetic for home decor.
