Walnut inlaid chessboard case with wooden Staunton Chessmen

The History

The Staunton chess pieces, the ones we know and love, the ones we simply think of as chess pieces. These classic chess pieces are named after Howard Staunton who was widely considered to be one of the best players in the world. The knight, the most intricate and distinct piece of any chess set, is a realistically carved horse head. The Staunton Knight was likely inspired by a sculpture on the east pediment of the Parthenon.

**Bauhaus Style wooden Chessmen
in black & white leatherette inlaid chessboard.**

The History

The Bauhaus movement was arguably the single most influential modernist art school of the 20th century. This game of chess with clean lines is typical of timeless Bauhaus style. It uses modest lines, circles and squares, reducing the pieces to their ultimate function — movement. The perfect chessboard for the Bauhaus style chess pieces features a unique leatherette inlaid design and compliments the pieces really well.
