Each piece of wood is unique with slight variations in the shape and graining. Naturally occurring small cracks and occasional small opening may be expected in some items.

Cleaning

Wipe clean before first use. Hand-wash only using a non-abrasive cloth or pad, warm water and mild dish soap.

Rinse completely with warm water. Do not allow the item to soak in water. Dry the piece immediately with a clean cloth or paper towel. To ensure that any water absorbed by the wood evaporates, allow it to completely air dry. The wood will appear to lighten as it dries.

Care

To prevent warping, staining or cracking and to renew the beauty of the wood grain, apply one or two coats of cutting board oil or food-grade mineral oil to the wood areas of the item as needed.

Work the oil into the surface with a clean cloth. After letting it sit on the wood for approximately 30 minutes, wipe off the excess oil. Do not use cooking oils, which will go rancid. Store the piece in a location where there is adequate air circulation. Avoid areas where there is excessive dry heat and direct sunlight.

NATURAL OIL FINISHING

We use natural oil food-safe, home-made with the contents:

Oil lime,
Soybean oil,
Clove,
Nutmeg.
