

# PETER PAN PLAST

## Peter Pan Plast

---

We project and manufacture totally in Italy our polythene and mater-bi bags and sacs for food preservation, for waste collection and for many other uses.

We founded Peter Pan Plast in 1979 and since then we aim at the creation of new products, the use of materials with high performances and the research of new markets, kept up by a global and integrated Quality System oriented to continuous improvement.

We have a great passion for technological innovation, in fact we have constantly renovated the machinery inventory providing the company with cutting edge production devices that grant us to widen the production capacity.

Our renovated warehouse management system with automatized storage locations and a specific software allows to optimize spaces and ensure the traceability of the whole production.

### High density roll bags with drawstring

“Il Sacco del Pesce Rosso” yellow roll bags with drawstring and paper band, for hamper, produced in high density polythene.

Measure cm. 60x65

pieces 15

Barcode 8008943 002220
