## CUITISAN

The efforts of CUITISAN  
will continue in the future.

### Beginning

In 1981, CUITISAN began as a manufacturer of household items. Through persistent R&D and trial and error, CUITISAN gained manufacturing know-how. In the 1990s, CUITISAN focused on the kitchen appliances market, and its story continues today.

### Selection

Optimum materials were used in development of the world's first four-sided airtight metal container - CRO-MOSTEEL kitchenware. CUITISAN continues to grow in line with social awareness of wellbeing and environmental pollutants emitted from kitchenware.

### Maintenance

CUITISAN never compromises in the safety of the raw materials we use, and insists on direct manufacturing by independent factories as we continue investing in the uniqueness of our products through R&D.

### Evolution

From innovative airtight metal containers that keep food fresh for a long time in freezer and it can be used in oven, dishwasher and microwave, CUITISAN continues to create new paradigms for the kitchen.

## CROMOSTEEL™

The optimum material for kitchenware  
meets CUITISAN technology.

CROMOSTEEL is a compound word from the Italian, *cromo*, and the English word "steel." Used on CUITISAN products, it contains over 18% chrome, which is key to why CUITISAN products rarely rust despite everyday use. It also contains copper, valued in this case for its antibacterial properties (resists 99% of bacteria).

CROMOSTEEL products are made of premium stainless steel and include all the functionality needed in kitchenware, and can be used semi-permanently. CROMOSTEEL is a registered trademark for CUITISAN.

CUITISAN technology means its products can be used safely in the microwave. (Please read the instructions before doing so.)

### Convenient for the freezer and oven, and easily disinfected with hot water

CROMOSTEEL can be used in temperatures ranging from  $-40^{\circ}\text{C}$  to  $400^{\circ}\text{C}$ : great for hot-water disinfection and use in the oven as well as the freezer (be sure to remove the cap before oven use).

### Dishwasher safe

Store a variety of foods safely, and wash it, worry-free, in the dishwasher.

Stainless steel 18/12

Innovation of stainless steel achieved by  
continuous research and development.

### Microwaves heat transmission

Innovative cromosteel body by Cuitisan is unlike usual way of common microwave oven which penetrates microwaves and directly touches the food, it interacts directly with microwaves to accumulate heat to body and transmit heat to its contents.

— Microwaves  
— Heat (temperature)

### Interaction microwaves and moisture

General principle of microwaves comes directly into food and generates heat as it evaporate moisture with immense vibrations. However Cuitisan keeps moisture by making the food hot with accumulating heat to body unlike common microwaves.

— Microwaves  
— Amount of water evaporation
