

LE FEU - TURTLE PIZZA OVEN

LE FEU TURTLE

AN OUTDOOR PIZZA OVEN WITH OUTSTANDING DESIGN

Le Feu Turtle is the latest addition to our exclusive product range. This luxurious outdoor pizza oven lets you live out your alfresco dining dreams, crafted with the utmost attention to design and quality. CE approved, Turtle's exterior is crafted from thick, high-quality materials, and powder-coated for the ultimate weather and water resistance. Inside, you'll find an opening large enough to fit a family-sized pizza up to 35cm in diameter. What's more, the oven features state-of-the-art technology which allows it to heat up to 500 degrees in just 10 minutes. At temperatures this high, pizzas can be cooked to crispy perfection in just 100 seconds, allowing you to create a professional restaurant experience for you and your guests. It is intuitive to control with an easy electric ignition and adjustable flame. Put simply, this is the ideal outdoor gadget for entertaining.

With the included limestone pizza stone, you have everything you need to enjoy perfect pizzas for years to come.

KEY FEATURES

- A much larger opening than other pizza ovens on the market, helping you cook enough for the whole family at once.
- An ergonomic design that heats up incredibly fast, with ultra-high temperatures to make pizzas in a matter of two minutes or less.
- Sleek and sophisticated, the Turtle pizza oven will look incredible in any elevated outdoor space. It's easy to move so you can place it in the perfect spot for you.
- CE approved and weather-resistant, Turtle also features innovative technology to take your pizza-making experience to the next level.
