Mops and cloths made
with Natural Fibers
in cotton and
bamboo viscose

Attention to use of
PLASTIC FREE
packaging

ECO SUSTAINABLE development

thanks to our photovoltaic roofs we produce

80.000 Kwatth of Green energy per year

and therefore we have not introduced

230.000 Kg of CO2 to date

but above all ... compensated

for **229,59** tons of CARBON
equivalent to **49 ACRES OF FOREST**

50.000 hours
of duration

with our **lighting led systems with
reduced environmental impact**

thus also limiting the waste of light bulb components such as glass and aluminum

85-90% of
energy saving

with
LED light signs

**OUR GOALS
for 2030:**

**double the production
of green energy
all plastic free packaging**

The awards have come over the years
