

About PETRAplast

- **We are PETRAplast s.r.o.** – family company established in 2007 by separation of production site of wholesale company established in 1993
- Our know-how helps us to achieve our goal to satisfy our customers and consumers with high quality goods
- Headquarters, production plant and warehouse are all situated in Jiřice - Humpolec, Czech Republic, 5 kilometres from D1 highway in the middle of Prague and Brno
- More **than 20 years of experiences** in plastic business

Our production

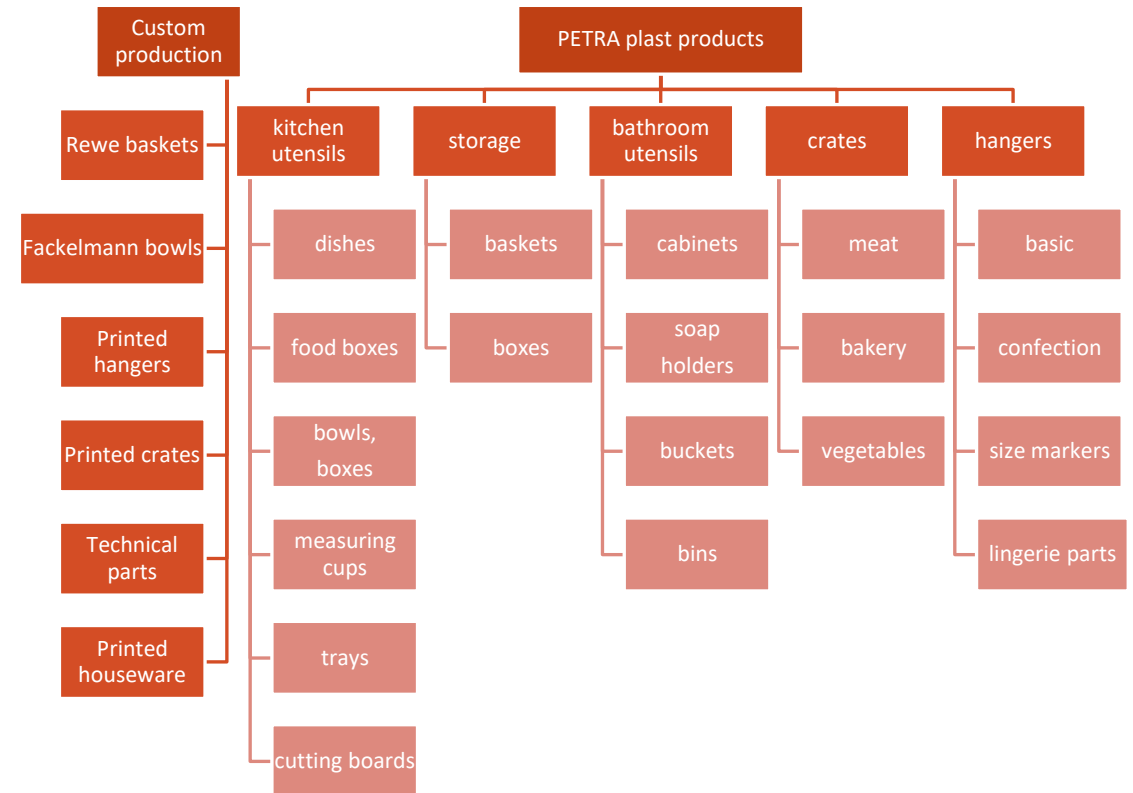

- **Our production program**

- houseware
- storage
- technical production
- custom production

- **Biggest part of our business:** our own designed products

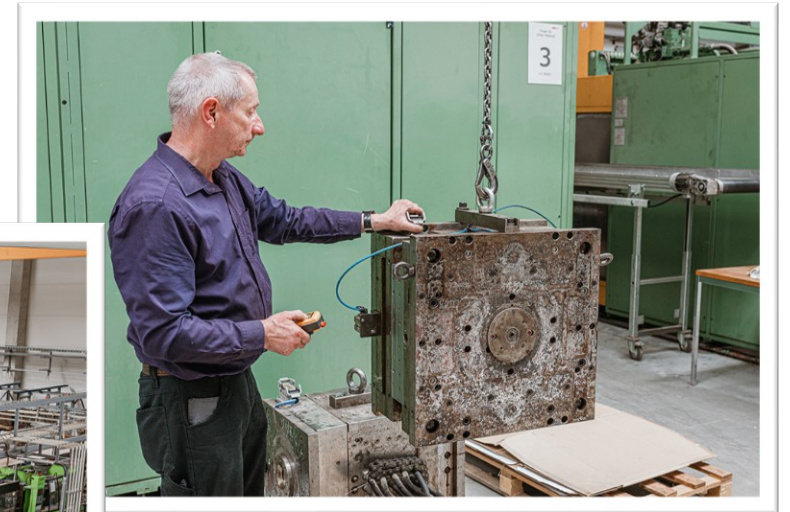

- kitchen utensils
- storage products
- bathroom utensils
- crates
- hangers

- **We are also able to print on most of our products**

Machines

- **Machinery equipment** of our company is created mainly by Engel injection mould
- Machines, from the little ones with clamping force from **80 tons** to big ones with clamping force **1200 tons**
- **20 injection machines** in total

Czech product

- We are a proud holder of the label - Czech product, which brings together Czech manufacturers
- Nowadays Czech customers are preferring Czech producers
- We are putting sticks with **Czech product logo** or we are putting this logo on leaflets

Printing

There is also possibility to **print on the goods** with screen printing, tampoprint or thermoprint thanks to our printing machines

Screen printing

Thermoprint

Tampoprint

Products made from recycled material

We must protect nature. That's why we treat recycling with respect in our production. We crush all defective pieces in production and further process the pulp. We then use the pulp for the production of products for which this is legally possible.

The recycled material is used for example for some hangers, shoe pads, shopping baskets, crates...
