SKOTTSBERG OUR STORY

At Skottsberg, we believe that a pan is not a disposable item, but a friend with whom you will experience new adventures and enjoy life. We want your Skottsberg to fit you like your favorite worn-out trainers.

A Skottsberg is personal, a pan for what a pan is meant to be: cooking your favorite dishes. Whether you use it on an open fire, in the oven or on a cooker. And whether you're an expert or a first-time baker, there's a Skottsberg for every cook.

ADVENTURE

Maybe adventure means learning new things?
Is the kitchen still unknown territory for you?
Take our carbon steel pan and rise to the challenge.

Or does adventure mean backpacking in the wilderness to
you? Putting your footsteps where there are no footsteps
yet? Then finish your day with one of our Cast Iron pans.

Or maybe you want to expand your cooking skills?
Is that your challenge? Your adventure?
Ask for one of our stainless steel pans and live it up!

SKOTTSBERG FOR LIFE

Buying a Skottsberg means choosing a sustainable product. Our pans have no synthetic non-stick coating. So, when your meat is simmering in a Skottsberg, you can breathe in the fumes with confidence. What's more, because our non-stick coating is made from natural oil, your kitchen smells good just from warming it up.

And sustainability, in our eyes, also means that a product must last. And that's what a Skottsberg does! If you take good care of your pan, it will grow older than you. Even better: a Skottsberg is like an American old-timer. The more you use it, the better it gets.

With a Skottsberg, you get yourself a pan for life...

CAST IRON

THE BEST CAST IRON PAN THAT LASTS A LIFETIME

CAST IRON

Skottsberg cast-iron pans are all you need to get back to basics. They're strong enough to be used on open fires: go ahead and bake, roast, and stew. Free the cooking beast in you.

CARL JOHAN FREDRIK SKOTTSBERG

Carl Johan Skottsberg was a Swedish scientist with an untamed curiosity about the world around him. His expeditions to the farthest corners of the world, could only be made possible with the best equipment.

And that's what we want at Skottsberg: to provide you with pans so robust that it makes no difference whether you go exploring the South Pole or on an expedition in your own kitchen. Skottsberg pans are suitable for any journey of discovery.

A person wearing a red and blue plaid shirt is cooking two fish in a black pan. The pan is placed on a large, flat rock. The background consists of green grass and brown leaves. The text "SKOTTSBERG" is visible on the handle of the pan and in the center of the image.
