01 Brand promise

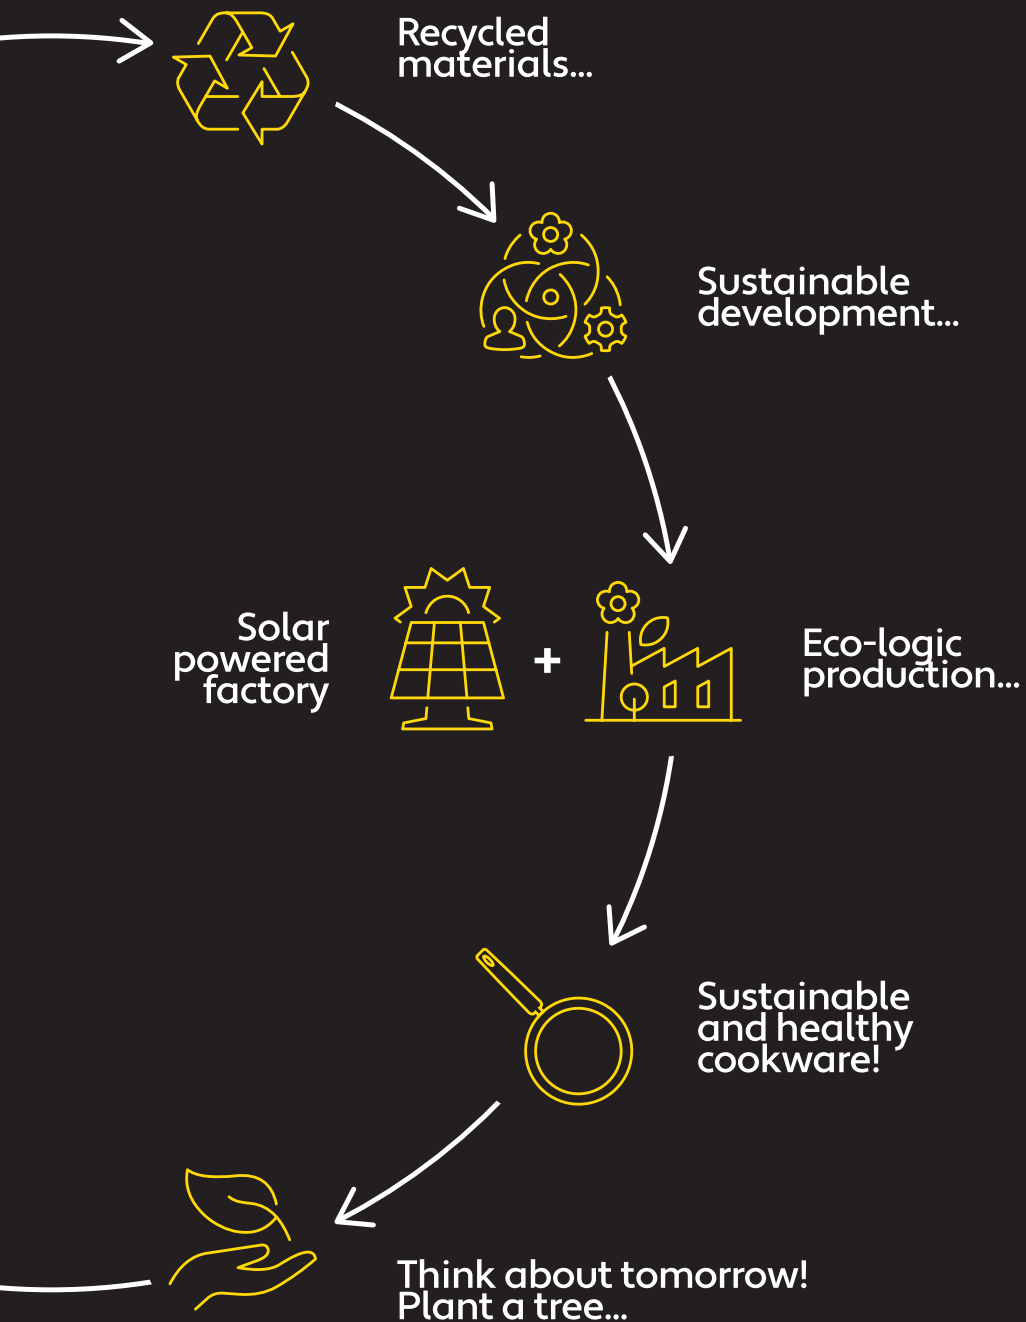

‘Serving carefree cookware
for every kind of chef.’

At Allinox, we don't just **design, manufacture** or **distribute** cookware. We serve it. The way that suits you best. **Tailor-made** if you want to, standardized if you like. We can even **deliver** right **to your doorstep**. We're a **people-oriented** company that listens carefully to everyone involved and goes the **extra mile** to make our clients happy.

We are **passionate** about creating **quality** cookware because we want people to be able to cook freely, all over the world. We like to look at our cookware through the lens of **real life**. So many chefs, so many stories. And whatever your story is, Allinox will serve you cookware that's just to **your taste**.

The cookware partner for
professionals and consumers
all over the world!

02

Recycled aluminium

Thanks to recycled aluminium, we help take care of the planet and protect the ecosystem for a better future. Because doing things right matters.

Those of us who work to protect our future know that it can only be achieved by doing things right.
