

# Stainless steel, stackable, but above all space-saving.

**allinox**  
We serve. You cook.

- This stainless steel range is packed with functionalities: stackability, stay cool handles, straining functionalities, serving functions, etc. With a wide range of items, 17 to be exact, this collection offers everything you could need in cooking utensils!
- Multimaterial: this range consists of stainless steel and aluminum items.
- Wide range of utensils: casseroles, stockpot, skillet, frying pans, grill pan, wok and glass lids.
- Stackable collection: both the pots and pans are designed to save as much space as possible! You can stack the 12-16-20-24 cm casseroles inside one 28 cm stockpot. And the handle of the frying pans is designed in such a way that all diameters nicely fit inside each other.
- Multipurpose lid: the flat glass lid with silicone rim not only let you closely monitor the cooking process, it can also act as a coaster for serving and it has straining holes (big and small holes).
- Stay-cool handles thanks to the silicone overmould.
- Inner capacity marks: no need for a measuring jug.
