Warm values Norwegian design

At Søgne Home, we design honest interior design products of the highest quality. The products we make are developed by our small team in Søgne in Kristiansand, and they are produced in close collaboration with our manufactures in Europe and Asia.

From the country of northern lights, fjords and wild nature – we are proud to offer the Søgne signature collection. Scandinavian Living is a collection with a strong focus on good quality for generations to come – and sustainability in its core.

We hope you enjoy it!

SCANDINAVIAN LIVING

Our collection means everything to us. Being able to shape things we ourselves like and believe in, and to know our products can create smiles and joy in loving households – **for generations.**

Handmade. Timeless. Porcelain.

The handmade Søgne mug collection first appeared in 2013, and it's known for the thin porcelain rim and comfortable handle.

Søgne mugs have become beloved favorites that we are proud of. With their timeless design, the mugs have been made to last for generations, and to make your day complete with a pertinent message.

Our porcelain products are made of durable porcelain in-glaze decal and is burned three times at 1270-1280 degrees Celsius. The high temperature ensures products with an incredible durability.

The porcelain products in our collection consist of big, small and standard mugs, bowls, carafe, plates and platters.
