Tools in the kitchen

The kitchen is where we cook together, eat and socialize with family and friends in a casual manner. Kitchen utensils and objects also need to express more living atmosphere and a soft cozy approach.

The collection displays all the things we use in the kitchen and a beautiful used wooden spoon on a hook can capture the essence of time, taste, smell and sound.

Tasty food

The way we live and what we eat is all about how we treat nature, other people and ourselves. Food is like good design - something we “eat with our eyes and with taste”. The design in this collection is thought to go along with and to promote fantastic food and ingredients of a good life. We merged the word DESIGN and BITE together as it makes the world of food and design come together.

Honest materials

Design is very much about feelings. Holding a piece of design in your hands should give you a sensation of genuine quality. Therefore we have used oiled oak, cork, fabric and other honest and natural materials in a nice blend. The materials bring a nice touch and tactility to the products.

There is a time for everything

Design is very much about how you arrange things in your home. Most of the objects in this collection can be arranged in hundreds of ways at any time. This multi rail system allows you to display items according to your own personal desire.

Furniture for life

The hardness of the dominant material in the collection is softened by dusty colors, which emphasizes the Nordic vibe and expression.

The colors and material supplement each other beautifully and creates an aesthetic look in your home

Table up, table down

Our folding table mounted on the wall is perfect for tight spaces, either as a home office or in the children room, as it requires so little when in an up-right position with pencils and the like hidden behind it.

Welcome your guests

The collection has a wide assortment for your hallway to welcome your guests. Small tables, mirrors and coat hangers in various sizes and design. All in a simple and poetic expression. This allows you to create small interiors in tight spaces.

Little mirror on the wall

Mirrors belong in every home, and one in the entrance is the perfect place for you to take a last look before leaving your home.

DesignBite offers several options, either to hang on the wall or as part of a hallstand.

Beauty with function

The focus on beauty has been part of our lives for many years, whether it is beautiful people or surrounding us with beautiful things, but combined with the functionality of today it possesses much more value. It might seem effortless, but that is the whole point.

Cleaning

Nobody really enjoys cleaning, but with this dustpan it is easy. It has a simple expression, but is stylish enough to get a spot on the wall in the kitchen, where it is within reach whenever it is needed to swipe up the breadcrumbs on the floor.

The designers

Hans Thyge & Co consists of passionate designers with bold ideas and a love for beautiful design. Together they work with a combination of a strong tradition and a drive to explore the unknown and innovative parts of design.

The design studio specializes in designing furniture, objects, and interiors. They juggle with everything from technical projects and lifestyle concepts to branding and communication and always with a strategic, sustainable, and commercial approach in mind. Hans Thyge & Co have a long history of know-how and experience working with a variety of materials and production methods for clients worldwide.

Working with many nationalities and different design approaches worldwide, demands an attitude of openness and collaborative skills. The mixture of different cultures and design-traditions is the hot-spot where great design comes to life.

Hans Thyge & Co believe in combining brain and heart, function, and aesthetics, and that every design should tell a story; a product is so much more than the product itself, it is about creativity, vision, culture, company values, the past, the present and the future.
