

FELLOW

Ode Brew Grinder Gen 2

Cafe performance for your countertop.
With upgraded Gen 2 Brew Burrs, increased 100 gram grind capacity, and anti-static technology for mess-free mornings, the next generation of our award-winning Ode Brew Grinder is ready to hit the grind running.

Brew Range:
Pour-over, drip coffee, AeroPress®, French press, cold brew

Key Features:

Meet The New Burrs

With unique two-stage grinding geometry, Ode Gen 2 Brew Burrs produce a sweet, balanced, and complex cup with enough clarity to respect the coffee. Whether you're a light roast drinker looking to increase extraction yield, or a medium and dark roast lover seeking rich chocolate and toffee notes, these burrs have something for everyone.

Precision Grind Quality

Precise particle size is possible with every push of the button thanks to cafe-sized flat burrs and easy grind adjustment with 11 settings and 31 steps in between.

Perfect For The Home

Ode Gen 2 transforms a morning chore into a quicker, quieter, and more enjoyable experience. By scrapping the oversized hopper and including noise reduction features, your countertop is officially open for brewing business.

Mess-Free Mornings

With new anti-static technology, a magnetically aligned catch for added cleanliness, and a grinds knocker to reduce grind retention, Ode Gen 2 will mitigate mess and keep your brewing area tidy.

Auto Stop
