

Product Catalog 2022

www.widemexinternational.com

Our ironing board covers increase ironing comfort and feature the very latest innovations.

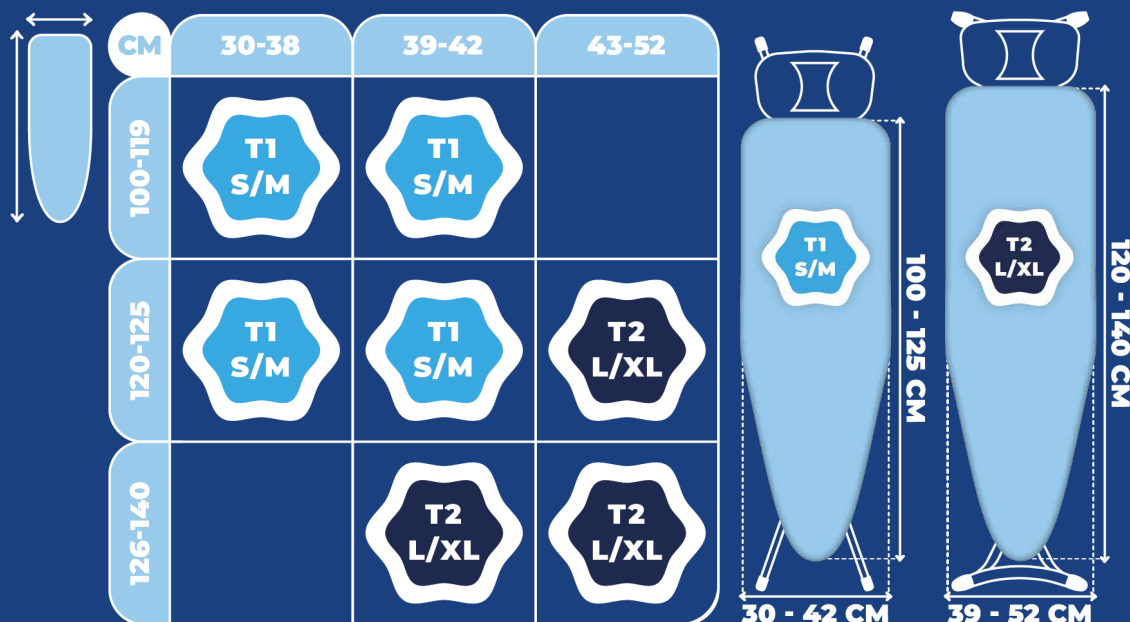

As a producer and supplier of ironing board covers we continue to develop ourselves, always valuing quality. By developing different types of ironing board covers, we ensure that we can offer the right cover for every consumer. You will be amazed of all the possibilities in the field of ironing!

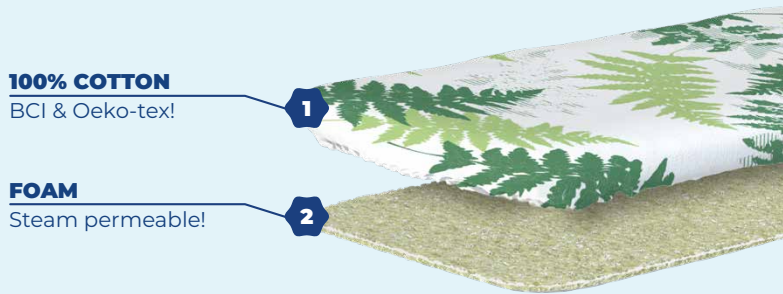

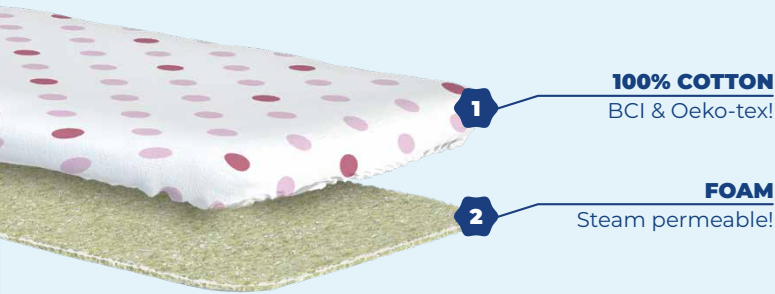

All of our ironing board covers are:

- Oeko-Tex certified:** which means that no harmful substances have been used;
- Made in Europe:** which means shorter transport routes and minimal CO2 emissions.

We participate in the Better Cotton programme, for a sustainable cotton production.

To choose your cover:

BASIC

2 layers / couches / lagen / Lagen / warstwy

This ironing board cover may be a basic version, but no concessions have been made to the quality.

Our drying racks are known for stability and durability.

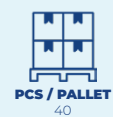

The two most important qualities of a good drying rack are: Stability and Durability.

Exactly what our drying racks are known for. They remain extremely stable even when you hang it full of laundry. Some of the drying racks are equipped with wheels so that you can move them around easily. The balcony drying rack is equipped with an extra sturdy suspension bracket. All of our drying racks are lightweight because they are made of aluminum. But nevertheless they are super sturdy.

These accessories are here to make your ironing life a lot easier.

How about a hanging system on which you can hang your ironing board? You can easily hang this on the door and save a lot of space. Or a handy iron sole that goes around your iron. This protects your delicate laundry from damage when you iron. Or what do you think of a silicone ironing mat? Here you can temporarily park the hot iron if you take a break during ironing.
