

SHIRT MEISTER®

Not many things on the 'How to ruin a first impression' list top a wrinkled shirt. Chewing gum, maybe. A weak handshake. No matter how much effort you put into your look, if your shirt looks like a mess, the impression you give will not be that great.

We get that there are plenty of things you would rather do than iron your shirt. That's why we designed the Shirtmeister®, a device equipped with technology that not only irons but dries your shirt as well. The Shirtmeister® is very easy to use and requires almost no effort by you, allowing you to [do anything you would rather do than iron your shirt] and still look well-dressed!

Say goodbye to wrinkled shirts and hello to your new best friend!
