A COMPANY AT THE FOREFRONT

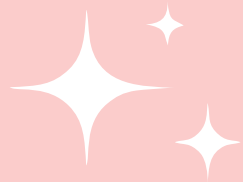

Polisur 2000, S.L. began its activity in 1984, and it is today a modern company with extensive national and international activity in the sector of plastic containers molding. We are currently present in Spain, Portugal and United States and we export worldwide.

We are leaders not only in manufacturing molded plastic products but also in marketing and distribution. With a team of 160 professionals committed to the company's objectives, POLISUR 2000, S.L. is a dynamic organization with a solid financial structure, advanced industrial equipment and an efficient sales network.

Our philosophy relies on continuous development while maintaining our position at the frontline of the market, ensuring the highest quality in our products and services, adapting to the needs of each of our clients and, as a consequence, consolidating our share in the current market.

We are certified according to the international standards ISO 9001: 2000, ISO 14001: 2001 and BRC (in design, production and distribution of EPS PET and PP molded products).

PASTEL COLOURS

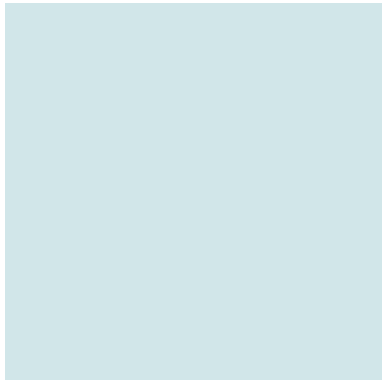

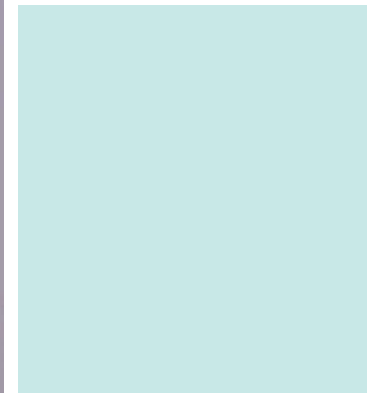

#YELLOW

#LILAC

#SKYBLUE

#CYAN

The background of the image is a close-up, high-resolution shot of water ripples. The water is a light pink color, and the ripples create a complex, organic pattern of light and dark pink lines. In the center of the image, there is a white circle. Inside this circle, the words "Lightness and Freshness" are written in a bold, pink, sans-serif font. The text is arranged in three lines: "Lightness" on the first line, "and" on the second line, and "Freshness" on the third line.
