

AeroPress®

NEW!

AeroPress XL Coffee Press

Want to double up on delicious coffee? Introducing the AeroPress XL coffee maker, designed to brew twice as much rich coffee, espresso or cold brew as our original model. We are excited to bring this long-awaited product to your shelves and deliver the benefits of the AeroPress Original coffee maker with twice the capacity. Help your customers brew for a crowd with the AeroPress XL!

WHY WE LOVE THE AEROPRESS XL:

- **DOUBLE YOUR BREW** – The AeroPress XL can brew up to six delicious shots of espresso style coffee with one press. If you prefer to brew your coffee by pushing all the water through the grounds, you can brew up to two cups (20 oz./590 ml) at one time.
- **SMOOTH, GRIT-FREE COFFEE** – Rapid brewing eliminates bitterness and acidity while micro-filters remove the grit typically found in other presses.
- **FAST, EASY BREWING** – Just add coffee and water, stir, and press. Bonus: clean-up takes only a few seconds!
- **CUSTOMIZE YOUR CUP** – Make up to 4 grit-free types of coffee: americano, latte, espresso, and cold brew.
- **INCLUDES BREW-AND-SERVE CARAFE** – Brew directly into the included carafe made of crystal-clear Tritan™. Then, easily pour the brew into one or more cups and serve.

INDIVIDUAL UNIT

UPC: 085276081991

Stock#: XL001

Weight: 0.6 kg (1.2 lbs)

Dimensions: 25.1 x 10.8 x 12.1 cm (9.875 x 4.25 x 4.75 in.)

5-PACK CASE:

GTIN#: 20852760819910

Stock#: XL005

Weight: 3.1 kg (6.7 lbs)

**What's
Included:**

Filter cap

Carafe

Chamber

Plunger

Stirrer

Scoop

100
Micro-filters

FREQUENTLY ASKED QUESTIONS:

- **What is the difference between the AeroPress XL and the AeroPress Original?**
The AeroPress XL uses the same breakthrough technology as the AeroPress Original. As the only coffee maker on the market that combines the best of 3 brew techniques into one simple to use press, you get uniquely delicious, grit free flavor. Create Americano, espresso style, latte or cold brew tailored to your taste in 1-2 minutes. So what makes the AeroPress XL different? It has twice the capacity of the AeroPress Original.
- **What is the capacity of the AeroPress XL?**
The AeroPress XL can brew up to six shots of espresso style coffee. If you prefer to brew your coffee by pushing all the water through the grounds, you can brew up to two cups (20 oz./600 ml) at one time.
- **How do you clean the AeroPress XL?**
For day to day use, a simple rinse is sufficient because the plunger wipes the chamber clean as you brew. However, you can wash the AeroPress XL in the dishwasher (top rack only). We recommend occasionally removing the seal from the end of the plunger for a good washing inside and out with warm water and dish soap.
- **What grind size works best with the AeroPress XL?**
For the best brewing experience, use a medium-fine grind size, shake to level the bed of coffee grounds before pouring in the water, and pour the water slowly.
- **Is AeroPress sold worldwide?**
Yes, AeroPress is loved by baristas and coffee consumers worldwide in over 60 countries (45k+ five star reviews online).
