TABLETOP · TABLEWARE

---

Copa&Cia is a Brazilian company and brand established in 1998 and is most specialized in tabletop and tableware, with products that include placemats, napkins, table linens, aprons, and others.

We are located in the city of Blumenau, in the South Region of Brazil. The city was founded in 1850 by the German Hermann Bruno Otto Blumenau. The cultural agenda of Blumenau is very enriched by the German culture and architecture, and every year the city presents a beautiful Oktoberfest inspired by the Munich festival in Germany.

We seek to transform homes into cozy places and to help our customers bring the joy of meeting friends and loved ones around a dinner table. We constantly dedicate ourselves to pursue the newest designs and trends around the world.

Copa&Cia distributes products and solutions to all states of Brazil, North to South, and we take special care for the logistics to happen in an efficient way.

We can also be found at the most import Trade Fairs and Exhibition Shows of Brazil.

All our products are branded to Copa&Cia, although we also offer private labelling solutions to many customers in Brazil and overseas.

We have a complete line of products focused on the tabletop business, and our customers range from small and independent retailers to large and complex chains, such as supermarkets and hypermarkets. We also provide solutions for Hotels, Restaurants and Catering companies.
