

QUALITY SOLDERING TOOLS

OVER 40 YEARS  
OF EXCELLENCE

SINCE 1977

## CRAFT HEATING TOOLS

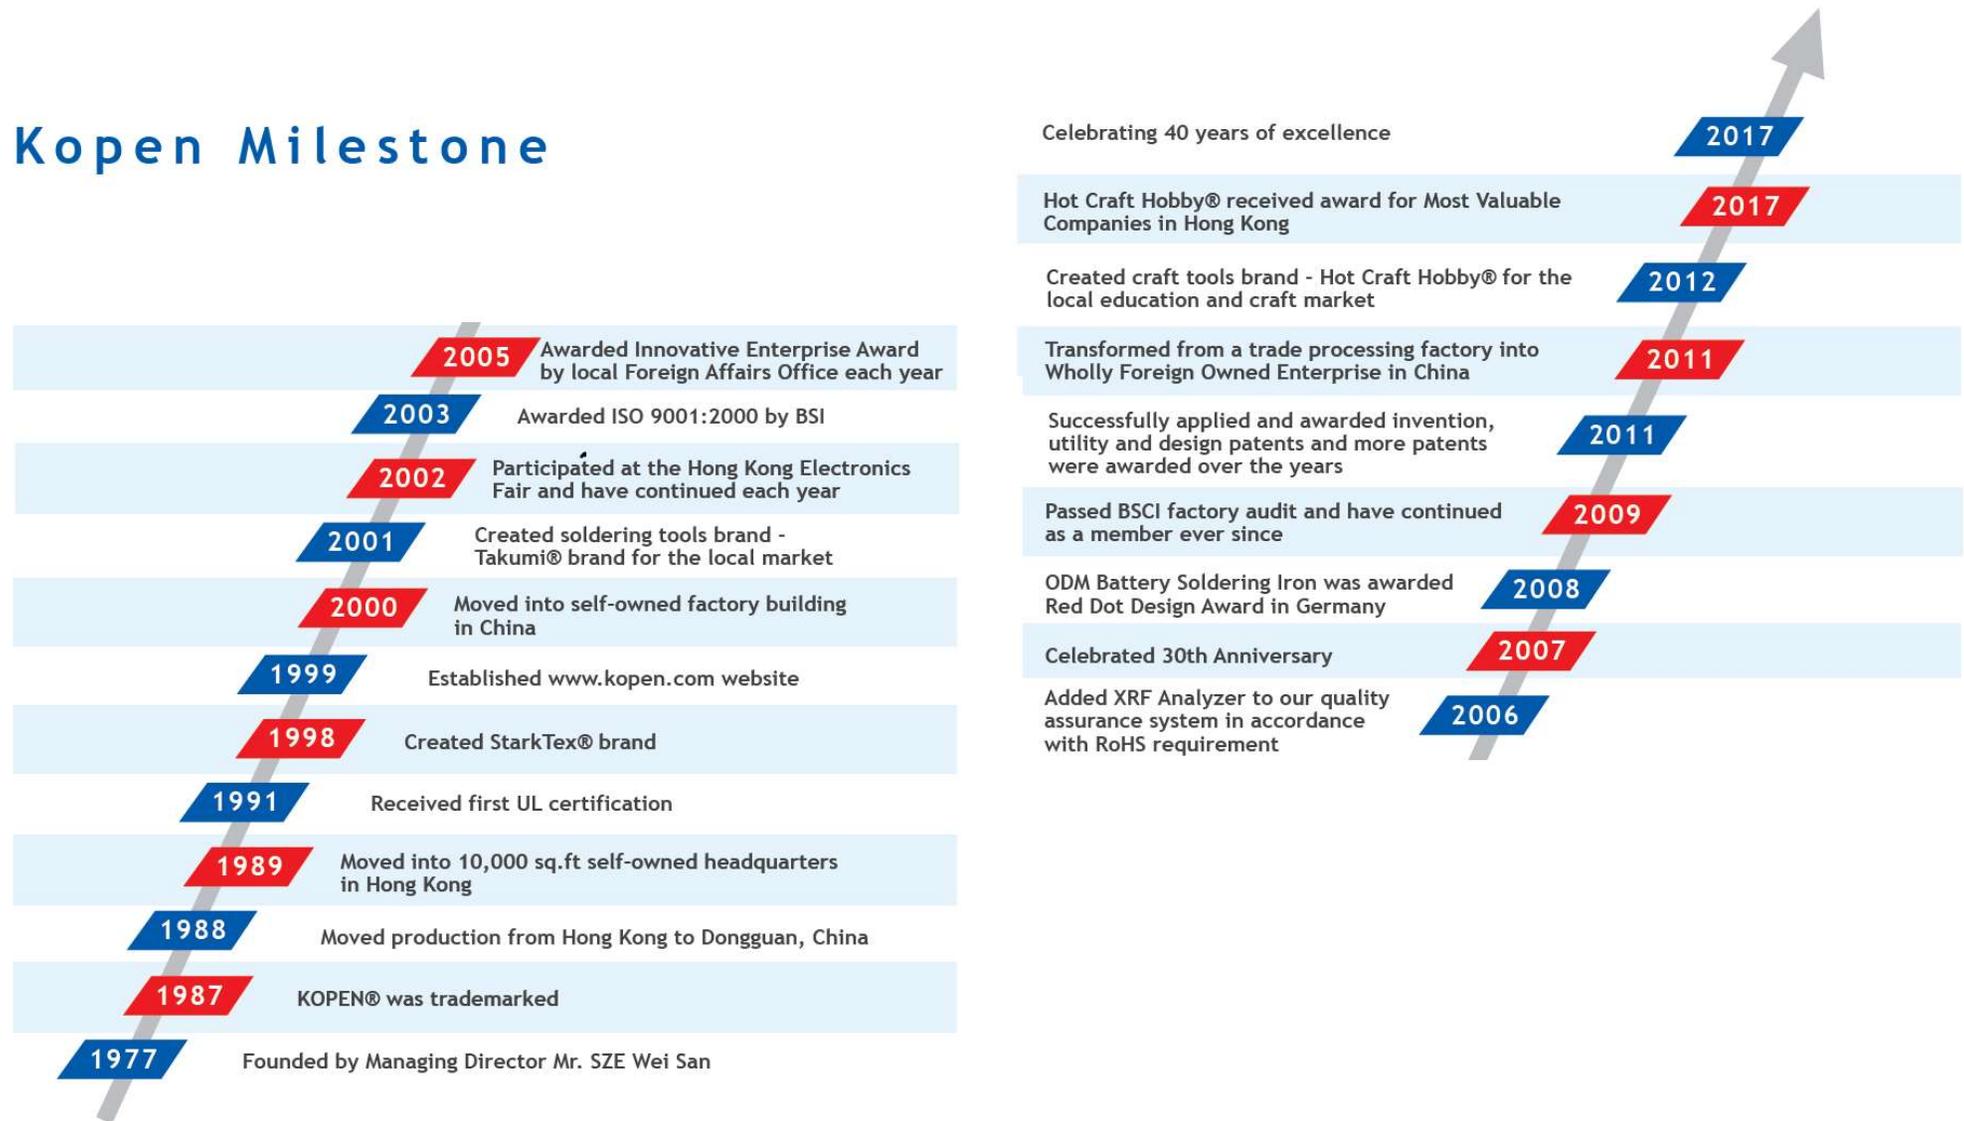

## SOLDERING IRONS

- ◆ **Established in 1977**
- ◆ **Family owned**
- ◆ **OEM/ODM manufacturer for soldering irons, woodburning pens, DIY heating tools**

# Kopen Milestone

# Manufacturing Base

1977: Started in Hong Kong

1988: Moved production to China

1998: Invested in land and building in Dongguan China

# Manufacturing Base

Year 2000: moved into current site

## SELF-OWNED FACTORY

Lot Size:	10,000m <sup>2</sup>
Factory Area:	~20,000m <sup>2</sup>
Dormitory & Canteen:	Six-storey high complex with licensed canteen and facilities ~5,000m <sup>2</sup>

# WHY KOPEN?

## VALUE

We put customer satisfaction first and strive to exceed your expectations. We never risk jeopardizing your reputation.

## INTEGRITY

We are your responsible, trustworthy partner who upholds moral and ethical principles.

## PARTNERSHIP

We give you peace of mind. You can be worry-free, avoids non-value costs and be able to focus on what you are good at.

## INNOVATION

Our main drive behind innovation is to find practical solutions and be able to pass on these benefits to our customers.

# INNOVATION

Kopen has been named **Innovative Enterprise** by the Dongguan Changan Foreign Affairs Office for over 10 years.

We have also received **Best Supplier Awards** from several of our esteemed customers.

# INVENTION PATENTS / UTILITY PATENTS / DESIGN PATENTS

*& more...*

*A dream will not become an innovation if there is no realization.*

*~ Ciputra.*

Our main drive behind our innovation is to come up with **practical solutions** for our customers.

## QUALITY

Consistent quality by tradition. Led by Hong Kong management, quality is built into our corporate culture guided by our Quality Policy and ISO Quality System.

## VALUE

We put customer satisfaction as our top priority. We give you peace of mind. We believe in keeping non-value costs to a minimum, so both partners emerge to be winners.

## CODE OF CONDUCT

We respect the principles of our Code of Conduct throughout our business operations. We continue to improve ourselves in every aspect.

## SAFETY

With an in-house laboratory, we also work with internationally accredited laboratories to stay on top of new safety standards. We continue to monitor them and never risk jeopardizing your reputation.

## LEAN

### MANUFACTURING

We work hard to improve quality, minimize wastes, reduce time and reduce costs. We continuously improve our manufacturing system design and plow in automation in order to pass on benefits to customers.

## R&D

Our main drive behind innovation is to find practical solutions. We have a well-balanced composition in our team, and we own a number of invention, utility and design patents.

OVER 40 YEARS  
OF EXCELLENCE

SINCE 1977

## Social Responsibility

Proud to be a

Over the years, we have passed numerous factory audits including amfori BSCI, Sedex, Target, The Home Depot, The Newell Group, Walmart, Disney, Michaels, C-TPAT, etc. Our top management commits to run our business operations ethically in a socially responsible manner. We continue to improve ourselves in every aspect to be accountable to our employees, our customers and the environment.

A hand is using a precision tool, possibly a soldering iron or a probe, on a glowing blue circuit board. The board is densely packed with various electronic components like capacitors, resistors, and integrated circuits, all illuminated with a vibrant blue light. The background is a blurred, high-tech environment.

# QUALITY & SAFETY

Two imperative metrics  
manufacturing

# IN-HOUSE LABORATORY

*In-house testing laboratory helps with:*

- ✓ Pre-checks *during new product development*
- ✓ Routine checks *for high volume products*
- ✓ Verification checks *for change of supplier or raw material*
- ✓ Qualification checks *for new suppliers*
- ✓ Screening checks *for selection of materials*
- ✓ Analysis checks *for improvement of quality*
- ✓ Comparison checks *against market products*
- ✓ Reliability & Performance checks

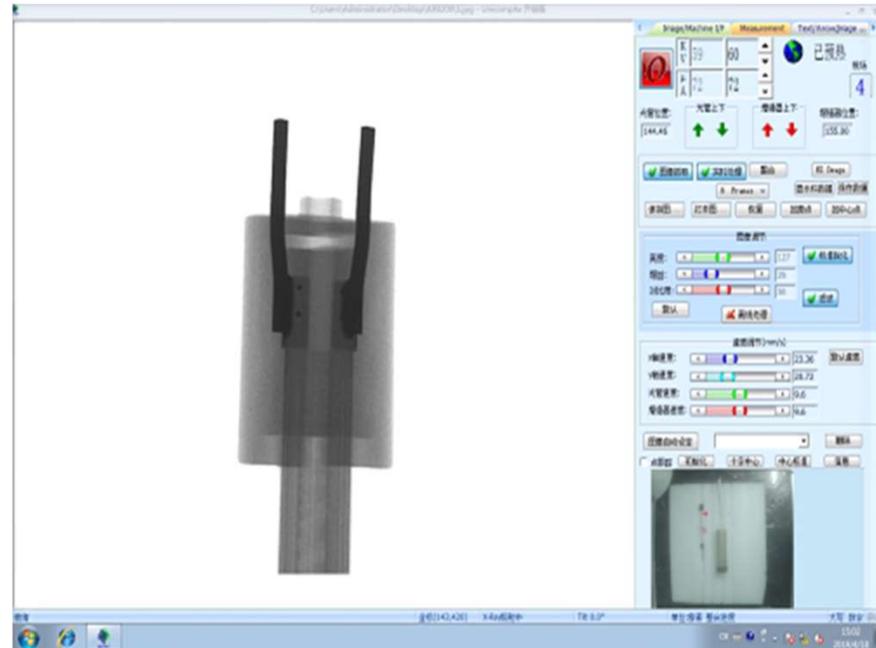

# Energy Dispersive X-ray Fluorescence Spectrometer (XRF)

- ✓ For *screening heavy metals* to perform *compliance check for RoHS and CA65*
- ✓ For *verifying raw material metal composition* to ensure incoming raw material quality

# X-Ray Analysis

- ✓ For *visual analysis* of *inner structures* without need to open up product

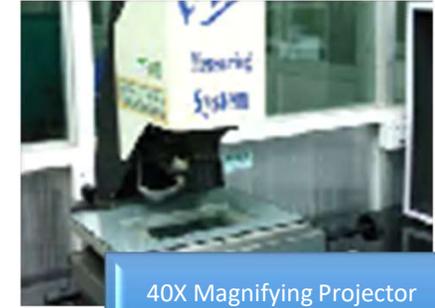

# OTHER EQUIPMENT

Temperature & Humidity Tester  
Glow Wire Tester

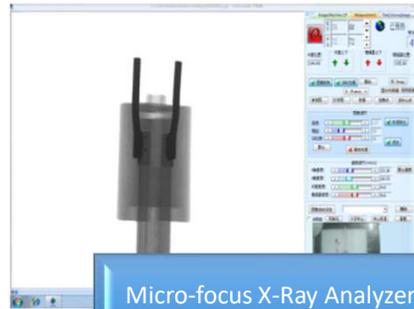

Tensile Strength Tester  
Salt Spray Tester

40X Magnifying Projector

Digital Hardness Tester

Micro-focus X-Ray Analyzer

Packaging Bursting Strength  
Compression Test Machine

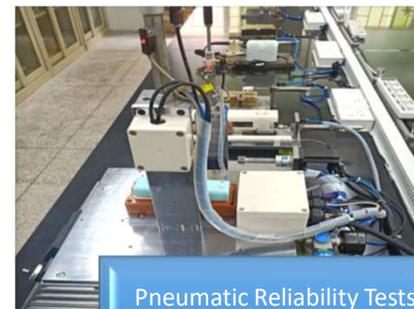

Pulling Tester  
Strain Relief Tester

Stability Inclined Plain Tester

Life Time Test Room

Pneumatic Reliability Tests

Packaging Drop Test
