

FUGINATOR®

Fights dirty grout.

**THE MOST INNOVATIVE GROUT BRUSH
WITH THE 3E FORMULA**

- ✓ **EASY CLEANING**
- ✓ **ERGONOMIC CLEANING**
- ✓ **EFFICIENT CLEANING**

THE COMPANY.

Fugenial GmbH is an independent and medium-sized family business that was founded in 2013 by the managing directors Janine and André Waldenburger. The idea for the Fuginator® was born back in 2009. Today, Fugenial sells its patented grout brush with innovative accessories through a worldwide network of sales partners.

Fuginator GmbH's recipe for success: production takes place in Germany and the products offer German craftsmanship - simply 100% Made in Germany.

In addition, as a family business, environmental awareness is always present. This also includes the ecological fingerprint, which is further reduced by the exclusive production in Germany. Further the conversion of materials to recycling and renewable raw materials was expanded and most recently the the Bio + Eco Quality of the cleaning product range. In the future, the focus will be on environmentally ecological products will be the focus.

As Managing Director, Janine Waldenburger pulls the strings in the background. Numbers, data, facts, keeping track and keeping a cool head are all hers.

The creative mind behind the Fuginator® is the Managing Director André Waldenburger himself. He works closely with the research and development department and ensures that trends are responded to quickly, innovations are implemented quickly, products are optimised and the portfolio is constantly growing.

With the 3E formula for easy, ergonomic and efficient cleaning, the Fuginator® stands for **Fights dirty grout.**

FUGINATOR® CLASSIC

Original in the colours orange/blue:

It was and is the first Fuginator® to be produced in the ergonomic shape and colour combination we know today: the Fuginator® Classic.

A direct further development of the very first prototype, which was created from the remains of a foot scraper - and the subsequent Fuginator® Basic, which at that time was still manufactured in a simpler basic form. We are proud of the history of the Fuginator® and still produce it in this Classic variant in the original colouring.

FUGINATOR® HOME

Clean joints. Made easy.

A great idea. Cleverly thought out. And perfected down to the last detail. That is the Fuginator® Home. Its handle shape, but also the robust bristles are optimised for the simple, quick and lasting cleaning of joints. The ergonomic shape makes it easy to guide and powerful to use.

The tool-free click system makes it easy to attach a suitable handle.

FUGINATOR® RECYCLING

The Material and the Production:

The raw material for the handle, the regranulate, consists of HDPE waste (polyethylene) from industry and trade, as well as of conventional households.

In a special process, the material is crushed, cleaned, separated, washed, dried and finally extruded. The finished granules are then sent for further processing in our production facility. The bristle material consists of cutting residues, which occur during cutting to length and returned to the production process.

Take advantage of the benefits and conserve natural resources with us.

FUGINATOR® CLEAN GREEN SERIES

- 🌱 **RECYCLED MATERIALS**
- 🌱 **RENEWABLE RAW MATERIALS**
- 🌱 **ENVIRONMENTALLY FRIENDLY CLEANING**
- 🌱 **SUSTAINABLE GENTLE ON JOINTS**

TAKE ADVANTAGE OF THE BENEFITS AND CONSERVE NATURAL RESOURCES WITH US.

Effective joint cleaning with the Fuginator® Clean Green Series. The cleaning agents Fugirein and Fugizid with the two joint brushes Fuginator® Bio and Fuginator® Recycling stand for environmentally friendly and gentle joint cleaning.

Fuginator® Recycling

Produced from HDPE (polyethylene) waste that is from industry and commerce as well as from households such as the „Gelben Sack“.

Fuginator® Screw adapter recycling

Made from HDPE waste. For better view the screw cap is white. Original this is also recycling grey.

Fugirein Bio + Eco Quality

Fugirein is a mineral-based joint cleaner, free of petrochemical surfactants. Removes stubborn dirt gently. Suitable for all cement and silicone grout as well as natural stone and ceramic natural stone and ceramic coverings in interior areas.

CLEANING JOINTS. FINALLY, SUPER EASY.

Grout brush for service providers in the hygiene sector.
Perfectly shaped to effectively clean right in the joint.
Is especially handy and can also be used with a pole thanks
to the practical pole adapter.
The Fuginator® ensures clean joints in the blink of an eye.

USAGE ACCORDING TO HACCP SPECIFICATIONS.

Red bristles: For toilet, urinal and tiles in the surrounding area.

Blue bristles: For furnishings such as desks, cupboards, chairs, shelves, radiators, doors etc..

Green Bristles: For special areas, e.g. cleaning and disinfection in the field of care, operating room or kitchen.

Yellow bristles: For the sanitary area such as sinks, tiles, shelves, fittings, mirrors, shower cubicles and bathtubs.

FUGINATOR® WHITE LABEL

Handle colour and bristle colour can be selected from the colour palette*.

ALL ADVANTAGES AT A GLANCE.

Screw adapter: The tool-free plug-in connection for quick and easy switching between using only the brush and working with a pole.

Ergonomically shaped handle: For particularly energy-saving, fatigue-free and relaxed cleaning.

Slim bristle arrangement: It ensures optimum power transmission, highly-effective working and is gentle on joints.

Additional bristles on the front side: These also allow the joints of skirting boards to be cleaned – ensuring cleanliness even within the corners.

Patented design: The Fuginator® handle saves a lot of power and thus ensures a significantly higher cleaning performance.

Well thought out: The Fuginator® can be sterilized and is acid- and lye-proof. It floats, so as to be easily retrieved from a cleaning bucket.

CLEAN JOINTS? MADE EASY.

Spray the joints with Fugirein and leave for 10-15 minutes.

Move the Fuginator® gently and without pressure in the joint. The special bristle shape ensures precise working.

Rinse off excess cleaner and cleaning residue with water and wipe with a cloth.

Impregnate cleaned, dry joints with Fugiperl: simply spray, allow to settle briefly and wipe off excess.

TIPS FOR USAGE

- ✓ The Fuginator® cleans all mineral and permanently elastic joints indoors.
- ✓ Can be used for kitchens, bathrooms, windows etc..
- ✓ We recommend using the Fuginator® together with our joint cleaner Fugirein.
- ✓ In case of heavy soiling, increase application time and as may be the case, clean again.

CLEANING MADE EASY. THE FUGINATOR IN ITS VERSATILITY.

The Fuginator® with its stable and narrow bristles stands for clean and hygienic joint cleaning. The versatility of these features can be used in a wide variety of areas.
