ABOUT US

In 1897 Mr. Ishikawa, the founder of Zebra Co. Ltd. made and marketed the first domestically produced metal nibs. The Zebra trademark was adopted in 1914.

Legend has it that Mr. Ishikawa wanted a company name that would be memorable and also appropriate for their export business to other countries. He took an English/Japanese dictionary and, opening it Japanese style from the back, started with the “Z” words.

He stopped at “Zebra”.

He found that zebras are gentle animals with a strong family herding instinct.

This was an important attribute, since he wanted to build a business in which employees and customers were all part of a family-like culture.

The fact that the zebra looks like it is decorated with large calligraphic pen strokes may have also

appealed to the visual image he was seeking.

Today the Zebra brand is as unique as the products we sell.

Zebra Pen offers an extensive line of writing instruments including ballpoint pens, highlighters, mechanical pencils, gel rollers, fountain pens and markers.

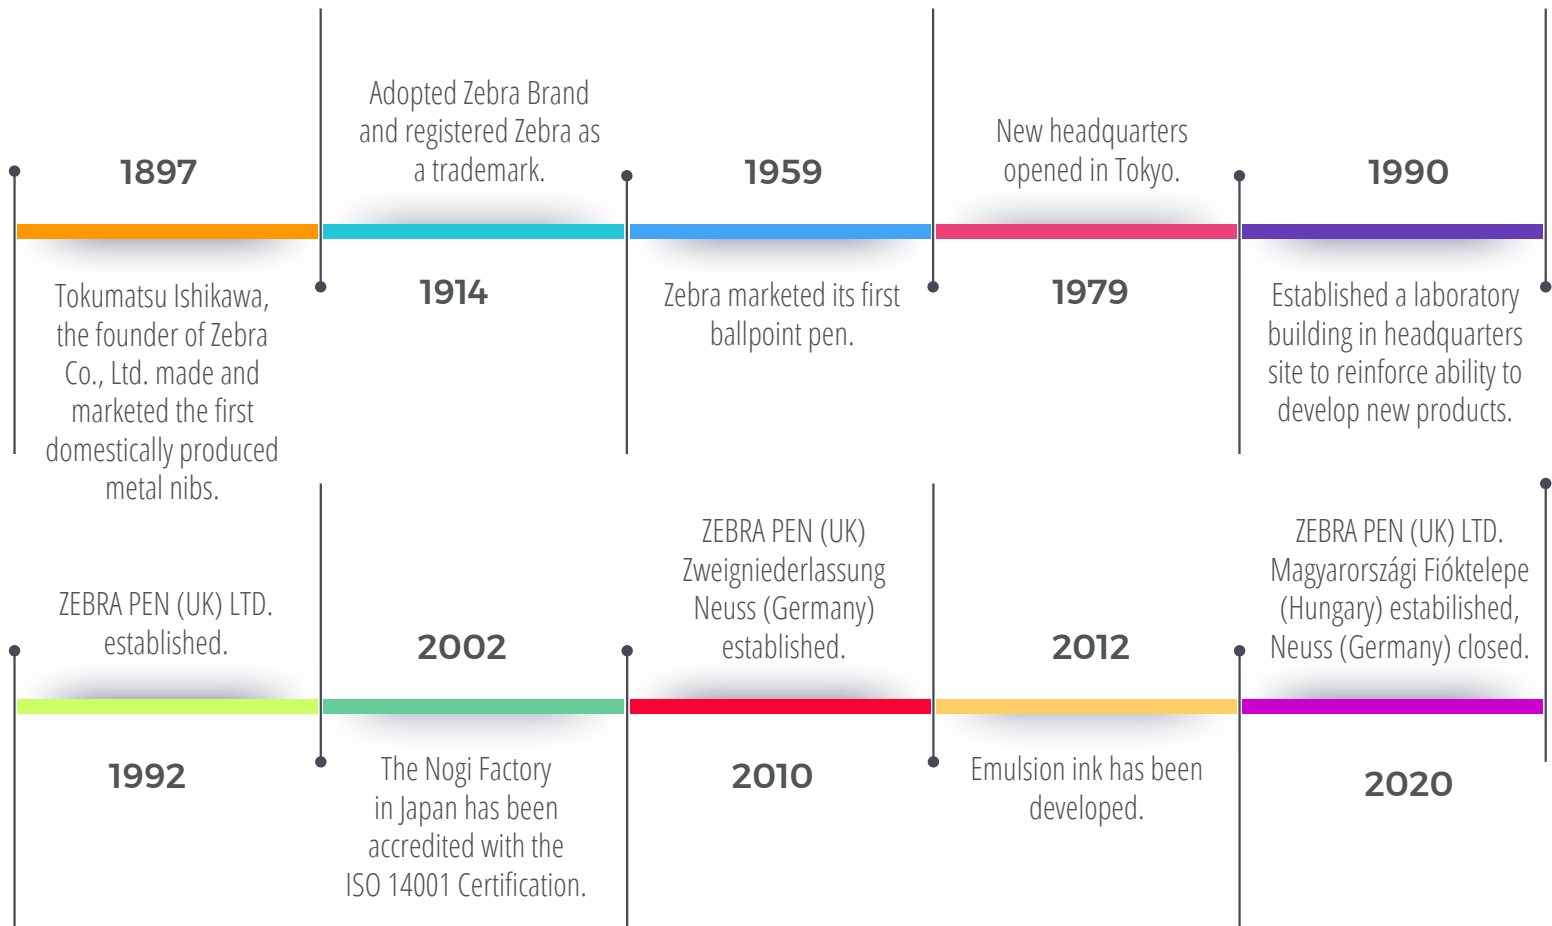

We stand behind our name and guarantee quality, satisfaction, and ultimate writing performance.

OUR MISSION

We are committed to empowering people to fully capture and express life's moments personally and professionally. This future will continue to be shaped by the evolving needs of our consumers and customers as well as the ideas and creativity of our people.

HISTORY

THE SOUL OF THE PEN

Ink is the soul of every pen, so we always think ink! Did you know that there are many different kinds of ink, each with unique properties that enhance the writing experience? At Zebra, we're serious about making the best pens possible, which means our Ink Lab team is always testing, innovating and perfecting ink formulas. Let's see our ink types!

OIL-BASED INK

Found in ballpoint pens, oil based ink doesn't smudge, lasts longer, and is a good value. It's ideal for everyday, heavy usage. This is for everyone who writes all day long!

WATER-BASED INK (GEL)

So smooth! No skipping and available in bold, highly pigmented colors, this water-based gel flows freely. Fun to write with, gel pens let you express yourself with confidence.

RAPID DRY INK

With our breakthrough Rapid Dry Ink technology, ink dries in just a second on most surfaces, so it's a favorite of left handers. Super smooth and available in many vibrant colors, it is perfect for creative art projects or everyday use.

CHECK-SAFE INK

Peace of mind. Our acid free, archival quality check-safe ink cannot be "washed" off, which means you don't have to worry about check fraud. Also ideal for artistic creations and journal writing.

SMOOTH INK (Emulsion)

The definition of smooth ink is "The suspension of liquid in a liquid." As of today, this is the 4th generation ink formulated by Zebra Pen. Though 'Hybrid' inks have been introduced to the writing instrument market, none of the formulations have produced the full emulsion ink properties now offered in the emulsion refill from Japan. Smooth ink is the formulation of water suspended in oil.

Open your imagination.
